- Exception reporting RMC
- RMC is updated with changes in the regulatory / investment environment
- Limit & Control Structures reviewed, modifications / additions made as required

CANARA ROBECO

Risk Process Flow

Note: The above is only indicative in nature and should not be construed as CRAMC Risk Management Policy or Process. There is no assurance or guarantee that the investment objective of the scheme will be achieved.

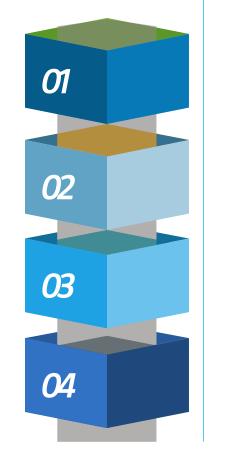

Proactive Credit Risk Management

It is to be noted that as a Fund House, Canara Robeco AMC did not have any exposure to the issuers at the time of their default during the credit crisis period of 2018-2020.

Stringent Risk Management – Key to superior risk adjusted return across interest rate cycles

Risk control process to manage risks through tools such as **issuer/sector limits**, **Liquidity tracking, managing portfolio concentration** and **Weighted average maturity** to ensure that the portfolio liquidity is maintained.

Maintaining a conservative portfolio through exposure to high credit quality issuers with low credit risk profile.

Optimal Diversification among sectors to achieve **consistency in returns**.

Given our **expertise** in managing debt portfolios with **high credit quality papers** and with **low credit risk**, we plan for a **New Fund Offer** in the **Banking & PSU Category**.

Note: The above is only indicative in nature and should not be construed as CRAMC Risk Management Policy or Process. There is no assurance or guarantee that the investment objective of the scheme will be achieved.

Presenting : Canara Robeco Banking and PSU Debt Fund

(An open-ended debt scheme predominantly investing in debt instruments of banks, public sector undertakings, public financial institutions and municipal bonds. Relatively high interest rate risk and moderate credit risk)

Why invest in a Banking & PSU themed debt fund?

Geo-political situation	High inflation leading to	Extremely low rates	Funding costs are likely to see a sharp rise
remains volatile; high	sharp tightening in	supported higher debt	
commodity prices to persist	monetary conditions	burdens	
Demand in the economy is likely to take a hit	Rising funding costs coupled with drop in demand is likely to squeez margins	e Credit profile of lower rated companies may deteriorate in coming years	

Note: The opinions expressed on this slide are the fund management views of Canara Robeco Asset Management regarding the Current economic situation. The view of the Fund Managers should not be construed as investment advice. Investors should consult their financial advisers if in doubt about whether an investment recommendation is suitable for them.

Canara Robeco Banking and PSU Debt Fund

CANARA ROBECO

Mutual Fund

The fund seeks to generate **optimal returns** by **investing in debt & money market instruments** issued primarily by **banks, public financial institutions (PFIs), public sector undertakings (PSUs) and municipal bonds.**

An **actively managed fund** that aims to **manage duration** and **capture opportunities** in the interest rate cycle and mispricing on the yield curve.

Canara Robeco Banking and PSU Debt Fund intends to maintain **high credit quality** and **liquidity** in the portfolio.

The fund aims to invest **~80% of the portfolio in bonds & money market instruments issued by Banks, PSUs & Public Financial Institutions and Municipal Bonds** and remaining **~20% in G-Secs/SDLs and other AAA or equivalent** debt/ money market securities.

How the Fund will Invest?

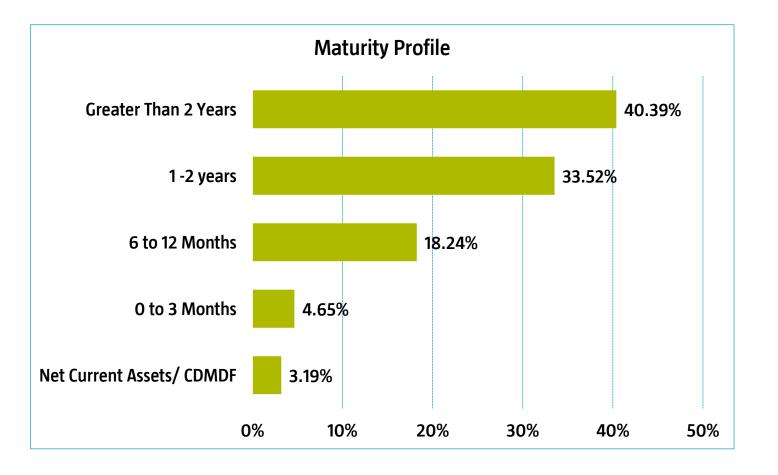

Instruments	Indicative Asset Allocation (% of total assets) Minimum	Maximum	Risk Profile High/Medium/Low
Debt and Money Market Instruments issued by Banks, Public Financial Institutions (PFIs), Public Sector Undertakings (PSUs) and Municipal Bonds	80%	100%	Low to Medium
Debt (including securities issued by Central and State Governments) and Money Market Instruments issued by entities other than Banks, PFIs, PSUs and Municipal Bonds	0%	20%	Low to Medium
Units issued by REITs and InvITs	0%	10%	Medium to High

The risks associated with issuances by Banks and PSUs are lower due to:

- ✓ Comprehensive Regulatory framework for Banks by the Reserve Bank of India.
- ✓ Government Ownership in case of PSUs/PFIs.
