

CANARA ROBECO GILT FUND

(Gilt Fund - An open-ended debt scheme investing in government securities across maturity)

This product is suitable for investors who are seeking*:

- Risk free return (except interest rate risk) and long term capital appreciation
- Investment in government securities across maturity

*Investors should consult their financial advisers if in doubt about whether the product is suitable for them.

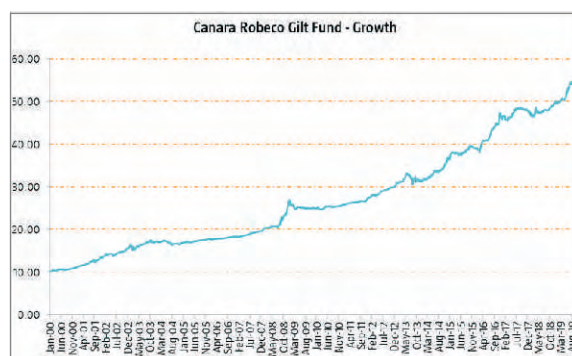

Canara Robeco Gilt Fund is an open ended debt scheme invests in G-Secs of varying maturity issued by Reserve Bank of India (RBI). The scheme intends to provide risk free return (except interest rate risk) and long term capital appreciation while maintaining stability of capital and liquidity. Being invested in sovereign papers, the fund does not expose its investors to Credit Risk as in the case of other fixed income funds investing in corporate debt.

Key Highlights of Canara Robeco Gilt Fund

- Through active management the fund aims at maximizing returns by aligning the portfolio based on views of interest rate movements
- As risk of default in government securities is generally considered to be nil, the portfolio is immune to credit risk
- Offers a Trigger facility which acts as an asset rebalancing tool and enables one to capitalize the gains
- Fund suitable for investors with moderate risk appetite and who have an investment horizon of medium to long term

NAV growth since inception:

Past performance may or may not be sustained in the future. Graph shows NAV of Regular Plan Growth option.

What is a Trigger Facility?

Target Appreciation Percentage (TAP) Trigger - Working

- A trigger is an event upon occurring of which the Scheme will automatically switch units as the case may be on behalf of the investor on the date of happening of the event.
- A TAP trigger facility will automatically switch units on behalf of the investor on achieving the targeted appreciation in % (such as 20%) as opted by the investor at the time of investment.
- This switch as selected by the investor shall be only to the extent of the increase in value.
- The trigger will only be executed in case of a point-to-point appreciation of the NAV with the TAP that the investor opted for.

The amount that will be switched is the amount with which the total investment has appreciated. The initial invested amount will remain in the Canara Robeco Gilt Fund

Benefits of Trigger Facility:

- This facility provides an opportunity to capitalize the gains
- Enables one to shift the profits from duration fund to safer avenues. At the same time investor can stay invested in duration fund
- Facilitates as an asset rebalancing tool

Terms & conditions in relation to the Trigger facility based on TAP (Target Appreciation Percentage):

- Exit load, if applicable will be charged.
- The facility will only be available under the Growth Option of the Regular Plan and the Direct Plan.
- The trigger is currently not available for SIP (Systematic Investment Plan)/STP (Systematic Transfer Plan) related transactions.
- Investors who wish to register a TAP as mentioned above, will have to submit the duly filled in Trigger form at the nearest Canara Robeco Mutual Fund Sales Office or to the Registrar & Transfer Agents of the fund
- The investors opting for the Trigger facility will have the right to redeem/switch their holdings before happening of the trigger event. In such cases, the trigger facility already registered for a particular transaction will be deactivated.
