

## CANARA ROBECO EQUITY HYBRID FUND

(Aggressive Hybrid Fund - An open-ended hybrid scheme investing predominantly in equity and equity related instruments)

### This product is suitable for investors who are seeking\*:

- Income/capital appreciation over long term
- Investment predominantly in equity and equity related instruments and a small portion in debt and money market instruments

\*Investors should consult their financial advisers if in doubt about whether the product is suitable for them.

### Balancing Risk & Return

An Aggressive Hybrid fund is a fund that invests in a blend of equity & debt instruments with aim to provide optimum returns to the investors. Generally, majority of the capital is invested in equities and a small portion is allocated to debt securities. Depending on the market scenario, the proportion of equity & debt is adjusted in the scheme. The fund aims to benefit from the growth opportunities in equity markets as well as generate steady income from debt markets.

### Aggressive Hybrid funds – Scope, Advantages

- **Risk Return :**
  - Since an aggressive hybrid fund has a larger allocation towards equity and a small exposure to debt, it is positioned between a pure equity and a pure debt scheme
  - The equity allocation aims to enhance overall returns of the portfolio.

### Investment Strategy – Key Highlights

- **Equity** – The scheme follows a GARP Style of Investing. The equity portion of the fund is invested in large caps & quality mid caps with the aim to provide stability and liquidity to the portfolio and opportunity for Capital Appreciation. The portfolio is well diversified across large number of stocks & sectors with the endeavour to mitigate concentration risk
- **Debt** - The fixed income allocation is actively managed following a blend of 'Accrual' and 'Duration' strategy. The fund invests in high quality corporate bonds & money market instruments in order to minimize the credit risk
