Definition: A group of people with a common objective, such as a company, school, religious organization, or a community. A group is a social organization that is organized, structured, and sustained. Groups of members who work together to achieve a common purpose or goal are called social groups. They are organized in the sense that they are organized and structured in the way they interact with the social structure of their society.

Example: A group of people with a common objective, such as a company, school, religious organization, or a community. A group is a social organization that is organized, structured, and sustained. Groups of members who work together to achieve a common purpose or goal are called social groups. They are organized in the sense that they are organized and structured in the way they interact with the social structure of their society.

Definition: A social organization that is organized, structured, and sustained. Groups of members who work together to achieve a common purpose or goal are called social groups. They are organized in the sense that they are organized and structured in the way they interact with the social structure of their society.

Example: A group of people with a common objective, such as a company, school, religious organization, or a community. A group is a social organization that is organized, structured, and sustained. Groups of members who work together to achieve a common purpose or goal are called social groups. They are organized in the sense that they are organized and structured in the way they interact with the social structure of their society.

2. Characteristics of a social group

A social group is a collection of people who are organized in a way that allows them to work together to achieve a common purpose or goal. A social group is a social organization that is organized, structured, and sustained. Groups of members who work together to achieve a common purpose or goal are called social groups. They are organized in the sense that they are organized and structured in the way they interact with the social structure of their society.

Definition: A social organization that is organized, structured, and sustained. Groups of members who work together to achieve a common purpose or goal are called social groups. They are organized in the sense that they are organized and structured in the way they interact with the social structure of their society.

Example: A group of people with a common objective, such as a company, school, religious organization, or a community. A group is a social organization that is organized, structured, and sustained. Groups of members who work together to achieve a common purpose or goal are called social groups. They are organized in the sense that they are organized and structured in the way they interact with the social structure of their society.

Definition: A social organization that is organized, structured, and sustained. Groups of members who work together to achieve a common purpose or goal are called social groups. They are organized in the sense that they are organized and structured in the way they interact with the social structure of their society.

Example: A group of people with a common objective, such as a company, school, religious organization, or a community. A group is a social organization that is organized, structured, and sustained. Groups of members who work together to achieve a common purpose or goal are called social groups. They are organized in the sense that they are organized and structured in the way they interact with the social structure of their society.

3. Types of social groups

1. **Primary social groups:** These are the most basic and simplest social groups, such as a family or a close-knit community.
2. **Secondary social groups:** These are more complex and organized social groups, such as a company or a school.
3. **Reference social groups:** These are social groups that are used as a standard or benchmark for comparison, such as a profession or a social class.

4. Social structure and social organization

Definition: The social structure is the pattern of relationships between individuals in a society. It is the way that individuals interact with each other and with the social structure as a whole.

5. Social organization

Definition: Social organization is the way that individuals interact with each other and with the social structure as a whole. It is the way that individuals interact with each other and with the social structure as a whole.

6. Social structure and social organization

Definition: The social structure is the pattern of relationships between individuals in a society. It is the way that individuals interact with each other and with the social structure as a whole.

7. Social

Definition: Social is the way that individuals interact with each other and with the social structure as a whole. It is the way that individuals interact with each other and with the social structure as a whole.

8. Social structure

Definition: The social structure is the pattern of relationships between individuals in a society. It is the way that individuals interact with each other and with the social structure as a whole.

9. Social

Definition: Social is the way that individuals interact with each other and with the social structure as a whole. It is the way that individuals interact with each other and with the social structure as a whole.

10. Social structure and social organization

1. **Primary social groups:** These are the most basic and simplest social groups, such as a family or a close-knit community.
2. **Secondary social groups:** These are more complex and organized social groups, such as a company or a school.
3. **Reference social groups:** These are social groups that are used as a standard or benchmark for comparison, such as a profession or a social class.

11. Social structure and social organization

Definition: The social structure is the pattern of relationships between individuals in a society. It is the way that individuals interact with each other and with the social structure as a whole.

12. Social structure and social organization

1. **Primary social groups:** These are the most basic and simplest social groups, such as a family or a close-knit community.
2. **Secondary social groups:** These are more complex and organized social groups, such as a company or a school.
3. **Reference social groups:** These are social groups that are used as a standard or benchmark for comparison, such as a profession or a social class.

1. **Primary social groups:** These are the most basic and simplest social groups, such as a family or a close-knit community.
2. **Secondary social groups:** These are more complex and organized social groups, such as a company or a school.
3. **Reference social groups:** These are social groups that are used as a standard or benchmark for comparison, such as a profession or a social class.

14. An object is released from the top of a 100 m tall building. The object falls 10 m during the first second. How far does it fall during the second second?
15. A 1000 kg car is moving at 20 m/s. It is accelerated to 30 m/s. How much work is done on the car?
16. A 1000 kg car is moving at 20 m/s. It is accelerated to 30 m/s. How much work is done on the car?
17. A 1000 kg car is moving at 20 m/s. It is accelerated to 30 m/s. How much work is done on the car?

Answers

1. Substitution of the formulae gives the following:

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Time (s)	Velocity (m/s)	Acceleration (m/s ²)	Distance (m)	Work Done (J)
0	0	10	0	0
1	10	10	5	5000
2	20	10	20	20000
3	30	10	45	45000
4	40	10	80	80000
5	50	10	125	125000

2. Substitution of the formulae gives the following:

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Time (s)	Velocity (m/s)	Acceleration (m/s ²)	Distance (m)	Work Done (J)
0	0	10	0	0
1	10	10	5	5000
2	20	10	20	20000
3	30	10	45	45000
4	40	10	80	80000
5	50	10	125	125000

The values of the work done are given in the following table:

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Work done = Force × Distance
 = 10000 N × 100 m
 = 1,000,000 J
 = 1 MJ

Time (s)	Velocity (m/s)	Acceleration (m/s ²)	Distance (m)	Work Done (J)
0	0	10	0	0
1	10	10	5	5000
2	20	10	20	20000
3	30	10	45	45000
4	40	10	80	80000
5	50	10	125	125000

Specific developmental order: subgroups are ordered according to their relative developmental complexity (e.g. *chickadee* → *crow*).

Each cell can be either empty, filled with the taxon name, or filled with the name of the clade that contains the taxon. The latter two options are used to indicate that the taxon is not a member of the clade.

Example: *chickadee* is a member of the clade *chickadee*.

- 1) *chickadee* is not a member of the clade *crow* (the taxon is not a member of the clade).

- 2) *chickadee* is a member of the clade *crow* (the taxon is a member of the clade).

- 3) *chickadee* is not a member of the clade *crow* (the taxon is not a member of the clade).

4) Clade membership

- 1) *chickadee* is a member of the clade *crow*.

2) *crow* membership

- 1) *crow* is a member of the clade *crow* (the taxon is a member of the clade).

3) *crow* membership (using a different clade)

4) *crow* membership

- 1) *crow* is a member of the clade *crow*.
- 2) *crow* is a member of the clade *crow*.
- 3) *crow* is a member of the clade *crow*.

- 5) *crow* is a member of the clade *crow* (the taxon is a member of the clade).

6) *crow* membership (using a different clade)

Example: *crow* is a member of the clade *crow* (the taxon is a member of the clade).

7) *crow* membership

- 1) *crow* is a member of the clade *crow* (the taxon is a member of the clade).

8) *crow* membership (using a different clade) (the taxon is a member of the clade)

The *crow* is a member of the clade *crow* (the taxon is a member of the clade).

Example: *crow* is a member of the clade *crow* (the taxon is a member of the clade).

Example: *crow* is a member of the clade *crow* (the taxon is a member of the clade).

Example: *crow* is a member of the clade *crow* (the taxon is a member of the clade).

Example: *crow* is a member of the clade *crow* (the taxon is a member of the clade).

- 1) *crow* is a member of the clade *crow* (the taxon is a member of the clade).

- 2) *crow* is a member of the clade *crow* (the taxon is a member of the clade).

7) *crow* membership (using a different clade)

Example: *crow* is a member of the clade *crow* (the taxon is a member of the clade).

Example: *crow* is a member of the clade *crow* (the taxon is a member of the clade).

Example: *crow* is a member of the clade *crow* (the taxon is a member of the clade).

Example: *crow* is a member of the clade *crow* (the taxon is a member of the clade).

8) *crow* membership

Example: *crow* is a member of the clade *crow* (the taxon is a member of the clade).

	chickadee	crow	crow
1	chickadee	crow	crow
2	chickadee	crow	crow
3	chickadee	crow	crow
4	chickadee	crow	crow
5	chickadee	crow	crow
6	chickadee	crow	crow
7	chickadee	crow	crow
8	chickadee	crow	crow

Example: *crow* is a member of the clade *crow* (the taxon is a member of the clade).

- 1) *crow* is a member of the clade *crow* (the taxon is a member of the clade).

- 2) *crow* is a member of the clade *crow* (the taxon is a member of the clade).

- 1) *crow* is a member of the clade *crow* (the taxon is a member of the clade).

2019-2020 Budget

Each agency provides a budget for operating expenses for the fiscal year. It also lists all revenues available to the agency, plus other information that may be applicable to the agency's operations.

The operating budget for each agency is divided into major and minor categories of expenditures. Major categories are based on functional areas, while minor categories are defined as follows:

1. Personnel: Salaries and other benefits for employees, including all indirect costs associated with the salary, unless reported on another agency's budget.

Major Category	Minor Category
Personnel	Salaries and other benefits for employees, including all indirect costs associated with the salary, unless reported on another agency's budget. Benefits: Health Insurance, Life Insurance, Pension, etc. Indirect Costs: Fringe Benefits, etc. Training: Training for employees. Other: Other personnel-related expenses.
Travel	Travel: Travel expenses for employees, including all indirect costs associated with the travel, unless reported on another agency's budget. Other: Other travel-related expenses.
Supplies	Supplies: Supplies for the agency, including all indirect costs associated with the supplies, unless reported on another agency's budget. Other: Other supply-related expenses.
Equipment	Equipment: Equipment for the agency, including all indirect costs associated with the equipment, unless reported on another agency's budget. Other: Other equipment-related expenses.
Construction	Construction: Construction for the agency, including all indirect costs associated with the construction, unless reported on another agency's budget. Other: Other construction-related expenses.

2. Other: Other expenses for the agency, including all indirect costs associated with the other expenses, unless reported on another agency's budget.

1. Salaries and other benefits for employees, including all indirect costs associated with the salary, unless reported on another agency's budget.
2. Benefits: Health Insurance, Life Insurance, Pension, etc.
