| July to September 2023 | 24/08/2023 | Vedant Fashions Ltd. | AGM | MANAGEMENT | Approve alteration to the Articles of Association (AoA) to delete clauses relating to the Investment Agreement                                            | FOR | FOR | In the July 2017 EGM, the company received shareholder approval to adopt a new set of Articles of Association, wherein the AoA was divided into Part I and Part II. Part II of the AOA contained the Investment Agreement executed then with two Investors (Rhine Holdings and Kedaara Capital). It was mentioned in the AOA that Part II shall automatically terminate and cease to have any force and effect from the date of listing of Equity Shares of the Company on a recognized stock exchange. The Investors have exited from the company by selling the shares held by them in the Company through an Offer for sale (OFS) in the IPO. The company now proposes to delete Part II of the AoA, including the reference of Part I and Part II in the event of listing of equity shares on a recognized stock exchange. In accordance with the existing AoA, Part II shall automatically terminate and cease to have any force and effect from such date of listing the equity shares. We support these amendments as they are being done to give effect to the termination of the Investment Agreement and remove redundant clauses in the AoA. |

Accordingly, Varma & Varma will act as joint statutory auditors along with PKF Sridhar & Santhanam LLP (till the remaining tenure of PKF Sridhar & Santhanam LLP). The company has stated that the proposed fee will not materially vary from the fee paid to Deloitte Haskins & Sells. The joint auditors were paid aggregate audit fee (including fees for limited review) of Rs. 14.6 mn and Rs. 17.2 mn for FY22 and FY23 respectively, on a standalone basis. We expect the board to fix the audit fees for FY24 in the similar range.                                                                                                                |

The proposed alteration allows debenture trustee to nominate its directors on board in case of a default. The proposed amendment is in line with SEBI's amended regulations. As per the altered Clause 46 of company's AoA, the debenture trustee will not be liable to retire by rotation. We recognize that this ensures protection of lenders' interest and is being done to comply with regulations. The proposed amendment is in line with market practices. In the case of ESOP 2011, the exercise price will be determined by NRC based on market price during the month prior to the date of grant. Since the exercise price will be determined at the discretion of NRC, the grants may be made at a discount to the market price. However, in case of ESOP 2011, the company has historically granted options at a price close to the market price, which aligns the interests of employees with that of the shareholders. We expect the company to grant any further options under ESOP 2011 at market price, in line with the past practice. We support the resolution. |

| July to September 2023 | 25/08/2023 | CreditAccess Grameen Ltd. | AGM | MANAGEMENT | Approve continuation of directorship of George Joseph (DIN: 00253754) as Chairperson and Independent Director after he attains the age of seventy-five on 26 April 2024                                                                                                                                                   | FOR | AGAINST | George Joseph, 74, is the Chairperson and the Lead Independent director of CreditAccess Grameen Limited. He retired as Chairperson and Managing Director of Syndicate Bank in 2009. The company seeks shareholder approval for his continuation after he attains the age of seventy-five in April 2024. He attended all eight board meetings held in FY23. We do not consider age to be a criterion for board memberships. We raise concern that through a postal ballot in April 2021, his reappointment was sought for five years from 9 September 2020 (till 8 September 2025) or till the attainment of the age of seventy-five (26 April 2024), whichever is earlier. Accordingly, we believe his second term ends on 26 April 2024. Given that regulations allow a maximum of two terms, we are unable to support his continuation beyond 26 April 2024 (completion of second term).                                                                                                                                       |

CreditAccess Grameen Limited's (CGL) capital adequacy ratio stood at 24.4% on 30 June 2023. CGL will have to maintain the capital adequacy ratio at levels prescribed by the RBI as it follows through on its expansion plans which will ensure that the NBFC's debt levels will be at regulated levels at all times. CGL's debt is rated CRISIL A+/Positive, IND AA-/Stable and ICRA AA-/Stable/ICRA A1+ denoting adequate degree of safety regarding timely servicing of financial obligations. We support the resolution.                                                                                                                                                                                                                                                                                                                  |
| July to September 2023 | 25/08/2023 | CreditAccess Grameen Ltd. | AGM | MANAGEMENT | Approve increase in commission to Independent Directors FY23 onwards in the range of Rs. 2.5 mn to Rs 5.0 mn per director per annum, subject to the overall threshold of 0.5% of consolidated net profits, and allow payment of commission in case of inadequate profits FY24 onwards, subject to regulatory requirements | FOR | AGAINST | Shareholders had approved the payment of commission to independent directors (FY22 onwards) in the range of Rs. 1.5 mn to Rs. 2.5 mn per annum, at the 2022 AGM. The company now seeks shareholder approval to increase the range of commission to Rs. 2.5 mn - Rs 5.0 mn per annum per director (FY23 onwards). The increment for each director will be restricted to 15% and the aggregate commission will not exceed 0.5% of consolidated net profits. The independent directors were paid aggregate commission of Rs. 7.9 mn and Rs. 7.2 mn respectively in FY22 and FY23 and the aggregate commission stood at less than 0.2% of consolidated PBT in last three years. The proposed commission to Independent Directors is in line with market practices. However, the company has not defined a tenure for the proposed commission and thus the resolution is effectively valid in perpetuity. We are unable to support the resolution as we believe shareholders must get a change to periodically approve such payments. |

| July to September 2023 | 28/08/2023 | Reliance Industries Ltd.                     | AGM | MANAGEMENT | Reappoint Mukesh Ambani (DIN: 00001695) as Managing Director, not liable to retire by rotation, for five years from 19 April 2024 and fix his remuneration and approve his continuation on the board till 18 April 2029            | FOR | FOR | Mukesh Ambani, 66, is the promoter, Chairperson and Managing Director of the company. Mukesh Ambani will not be paid remuneration: as a promoter, we understand that he has skin in the game. He will be entitled to reimbursement of expenses incurred for travelling, boarding and lodging including for spouse and attendants during business trips. The company will also provide security for Mukesh Ambani and his family. RIL should have disclosed the expected quantum of such expenses. Shareholders' approval is being sought through a special majority since Mukesh Ambani will complete 70 years of age during his tenure: we do not consider age to be a criterion for board appointments. Mukesh Ambani is not liable to retire by rotation as per the company's Articles of Association. SEBI's new amendment effective 1 April 2024 requires all directors to seek shareholders' approval for their continuation once every five years. Through this resolution, the company is seeking shareholders' approval for Mukesh Ambani's continuation on the board till 17 April 2029. |

| July to September 2023 | 28/08/2023 | Sun Pharmaceutical Inds. Ltd.               | AGM | MANAGEMENT | Appoint Aalok Shanghvi (DIN: 01951829) as Whole time Director, liable to retire by rotation, for five years from 1 June 2023 and fix his remuneration                                                                         | FOR | FOR | Aalok Shanghvi, 39, is part of the promoter family (son of Dilip S. Shanghvi) has been associated with Sun Pharmaceutical Industries Limited since 2006. He handled various role in marketing, R&D, project management, purchases and communications. He previously served as Executive Vice-President, Head (Emerging Markets), Head (Global Generics R&D and Business Development) at Sun Pharmaceutical Industries Limited. He is a graduate with major in cellular and molecular biology from the University of Michigan – Ann Arbor. His proposed FY24 compensation is Rs. 68.9 mn and we estimate his maximum remuneration (during the five year tenure) at Rs. 109.3 mn. The company must disclose performance metrics that determine his variable pay. We raise concern that Sailesh Desai (age: 69), a Whole-time Director (professional), drew Rs. 19.7 mn as remuneration for FY23, which is less than half of Aalok Shanghvi's (age: 39) proposed compensation for FY24. Sailesh Desai has been on the board of Sun Pharma for over 24 years. The company must explain how Aalok Shanghvi's remuneration has been benchmarked within the internal cadre for his prior work experience. Notwithstanding, his overall compensation is commensurate to the company's size and is in line with peers and thus we support the resolution. |

He previously worked with Amgen Inc. (a biotechnology company) for over 12 years and with Eli Lilly and Company (an American pharmaceutical company) for over a 17 years. The company has disclosed that Sun Pharmaceutical Industries Limited has a consulting services agreement with NavBio AG and the annual agreement value does not exceed SFR 0.1 mn (~Rs. 9.3 mn). While his appointment is in line with statutory requirements, we do not support the appointment of Independent Directors in case of business linkages with the company – either directly or through their employer and thus, we are unable to support the appointment of Rolf Hoffmann. The board must consider appointing him as non-independent director. Public sources suggest that he is a board member of certain global pharmaceutical companies including Genmab A/S (Denmark), Paratek Pharmaceuticals, Inc. (USA) and IDT Biologika GmbH, Dessau-Roßlau (Germany). The company must clarify if there is any overlap in the products offered and markets covered by Sun Pharma and other companies where Rolf Hoffmann serves as a board member/ consultant. |

| July to September 2023 | 28/08/2023 | Britannia Industries Ltd. | AGM | MANAGEMENT | Reappoint Nusli Wadia (DIN: 00015731) as Non-Executive Non-Independent Director, liable to retire by rotation                                       | FOR | FOR | Nusli Wadia, 79, is promoter and Non-Executive Chairperson of the company. He has attended all the board meetings held in FY23. He retires by rotation and his reappointment is in line with statutory requirements. We note that SEBI had issued an order banning Bombay Dyeing and Manufacturing Company Ltd (Bombay Dyeing) and its promoters including Nusli Wadia from the securities market for two years. However, as per the FY23 Annual Report of Bombay Dyeing, the company has filed an appeal with Securities Appellate Tribunal (SAT) against SEBI's order above and has obtained a stay on the same. The company has sought an ordinary approval for reappointment. We believe approval via special resolution is required for appointment/ reappointment/ continuation of non-executive directors who have attained 75 years of age. Nevertheless, we do not consider age as a criterion for board membership and support his reappointment. |

Based on his remuneration terms, we estimate his FY24 remuneration as Managing Director in the range of Rs. 54.9 mn to 97.4 mn, which is slightly higher than peers. However, Ajit Venkataraman is a professional whose skills carry market value. We raise concern that there are no disclosures on the performance metrics that determine variable commission, further the commission is at the NRC. We expect companies to disclose performance metrics and cap the remuneration payable in absolute terms. Notwithstanding, we support his appointment.                                                                                                                                                                                                                                                                                                                         |

The company has not provided any clarity on the calculation of bonus/performance linked incentive proposed for Sanjay. While the fixed pay for FY24 can be estimated at Rs 22.6 mn, his overall pay structure is open-ended and gives the board discretionary powers in deciding his variable pay components. We base our decision on the expectation that Sanjay Shah's overall remuneration will remain at judicious levels, as has been in the past. |

| July to September 2023 | 29/08/2023 | Prudent Corporate Advisory Services Ltd. | AGM | MANAGEMENT | Approve increase in remuneration to Shirish Patel (DIN: 00239732) as Whole-time Director and CEO from 1 April 2023 to 31 March 2024, which may exceed 5% of profits  | FOR | FOR | Shirish Patel, 46, is Whole-time director and CEO of the company. He was paid a remuneration of Rs. 72.5 mn in FY23 (up 11% from Rs 65.3 mn paid in FY22). Shirish Patel has played a key role in the growth of the company. Additionally, the company has clarified over email that his proposed performance-based variable pay for FY24 and onwards is linked to the Company's performance. For instance, if the Company's consolidated profit increases by 10% in FY24, he will be eligible for a variable pay of 10% of his fixed annual remuneration, resulting in a total remuneration of Rs. 6.732 crore for FY24 (Rs. 6.12 crore fixed remuneration and 0.61 crore variable pay). Given the nature of the business, the profit of the company cannot exceed 25-30% annually in our understanding. On the significant increase in this year's fixed remuneration, the company has clarified that earlier 50% of Mr. Shirish Patel's annual salary was a fixed/confirmed incentive/bonus (Fixed Incentive), which was not linked with performance, while the remaining amount was a variable incentive/bonus, which was linked with performance. Based on the recommendation of the Nomination and Remuneration Committee and the approval of the board, it is proposed to include his Fixed Incentive of 50% as part of the Salary Component from FY 2023-24 and therefore the increase looks very high. On the basis of the clarification provided by the company, we are voting in favor of the resolution. |

| July to September 2023 | 29/08/2023 | Prudent Corporate Advisory Services Ltd. | AGM | MANAGEMENT | Reappoint Shirish Patel (DIN: 00239732) as Whole time Director and CEO for three years from 1 April 2024 and fix his remuneration which may exceed 5% of profits              | FOR | FOR | Shirish Patel, 46, joined the company in 2005. He is a professional. He has played a key role in the growth of the company. Additionally, the company has clarified over email that his proposed performance-based variable pay for FY24 and onwards is linked to the Company's performance. For instance, if the Company's consolidated profit increases by 10% in FY24, he will be eligible for a variable pay of 10% of his fixed annual remuneration, resulting in a total remuneration of Rs. 6.732 crore for FY24 (Rs. 6.12 crore fixed remuneration and 0.61 crore variable pay). Given the nature of the business, the profit of the company cannot exceed 25-30% annually in our understanding. On the significant increase in this year's fixed remuneration, the company has clarified that earlier 50% of Mr. Shirish Patel's annual salary was a fixed/confirmed incentive/bonus (Fixed Incentive), which was not linked with performance, while the remaining amount was a variable incentive/bonus, which was linked with performance. Based on the recommendation of the Nomination and Remuneration Committee and the approval of the board, it is proposed to include his Fixed Incentive of 50% as part of the Salary Component from FY 2023-24 and therefore the increase looks very high. On the basis of the clarification provided by the company, we are voting in favor of the resolution. |

Further, the auditors drew attention to an appeal filed by the company with High Court of Delhi in the matter of arbitral award pronounced against the company and the related provision made. There is also an emphasis of matter pertaining to absence of audit committee approval on certain related party transactions during the year. The statutory auditors' view on the Internal financial controls is qualified due to the inability of the company to take prior approval for related party transactions. Typical of public sector companies, NTPC has six joint auditors. The audit committee must provide clarity on how it establishes accountability of these auditors and ensures that issues do not fall through the cracks, while allocating audit responsibilities. |

However, we note that the company has disclosed neither his tenure nor his proposed remuneration: remuneration in public sector enterprises is usually not high. Further, while public sector enterprises are exempt from the requirement of seeking shareholder approval within three months of the appointment date, as a good practice, the company should have sought approval for Shivam Srivastav's appointment within three months. |

Transactions have ranged between Rs. 2.3 bn to Rs. 2.6 bn over the last five years. The company is seeking a limit of Rs. 5.3 bn with Global Autotech Limited, which reported FY21 revenues of Rs. 3.4 bn. There is no disclosure on Global Autotech's FY23 size and performance. Further, it is unclear of Global Autotech has any material customers other than Subros Limited: the proposed RPTs amount to 84% of Global Autotech's FY22 turnover. We raise concerns over the structure of the business relationship – we do not support transactions with promoter-controlled entities that have business adjacencies with the listed company.                                                                                                                                                                                                                                                                                                                                                             |

The company proposes to amend their AoA by inserting sub-clause (d) after existing sub-clause (c) under clause 102 following this amendment. While we generally do not support the appointment of directors not liable to retire by rotation as it creates board permanency, we recognize that this ensures protection of lenders' interest and is being done to comply with regulations. Therefore, we support the resolution.                                                                                                                                                                                                                                                                                                      |

(engaged in providing senior living and senior assisted care services, part of the Max group) and the Managing Director and CEO of Antara Senior Living Ltd (subsidiary of Max India Ltd.). His appointment as an Independent Director is in line with statutory requirements. Rajit Mehta is a director on the board of Sheares Healthcare India Holdings (a Temasek group company). Public sources suggest that Manipal Hospitals is a portfolio company of Sheares Healthcare. Manipal Hospitals, through 'HealthMap Diagnostics' is engaged in providing diagnostic services. The board must articulate how Rajit Mehta will manage the potential conflict of interest arising from his directorship on the board of Sheares Healthcare with a financial interest in competing diagnostics services businesses. Notwithstanding, Rajit Mehta is a board member of the holding company (Sheares Healthcare) and not of the operational entity providing diagnostic services and thus may not have a major role to play in the functioning of the diagnostics business of Manipal Hospitals. Therefore, we support the resolution. |

The previous approval was valid till 20 August 2023. The company now proposes to pay commission within the regulatory threshold of 1% of net profits for three years from 1 April 2023. The aggregate commission to non-executive directors ranged between 0.2% - 0.3% of standalone PBT in the last three years. The proposed commission is in line with market practices; the company has capped the maximum annual commission per director at Rs. 3.0 mn, which is a good practice.                                                                                                                                                                                              |

| July to September 2023 | 12/09/2023 | Dr. Lal PathLabs Ltd. | AGM | MANAGEMENT | Approve overall remuneration to directors in excess of 11% of net profits for FY24 and FY25 in the event of exercise of stock options by Dr. Om Prakash Manchanda, Managing Director (DIN: 02099404) and Rahul Sharma, Non-Executive Director Non-Independent Director (DIN: 00956625) | FOR | FOR | The company has been paying remuneration to all directors within the threshold of 11% of the net profits under Companies Act, 2013. Dr. Om Prakash Manchanda, Managing Director, has been annual granted stock options/ restricted stock units (resolution #7). Further, Rahul Sharma, Non-Executive Non-Independent Director was granted certain stock options pre-listing (resolutions #8 and #9). In the event of exercise of stock options by Dr. Om Prakash Manchanda and Rahul Sharma, the overall director remuneration may exceed 11% of net profits. We factor in stock options at the time of the grant and not at the time of exercise: companies factor in perquisite value of stock options at the time of exercise. We support the resolution. Our view is linked to resolutions #7, #8 and #9.                                                                                                                                                                                                                                                                                                         |
| July to September 2023 | 12/09/2023 | Dr. Lal PathLabs Ltd. | AGM | MANAGEMENT | Approve remuneration to Dr. Om Prakash Manchanda, Managing Director (DIN: 02099404) in excess of 5% of net profits annually in event of exercise of stock options, till the end of his term on 31 March 2025                                                                           | FOR | FOR | Dr. Om Prakash Manchanda was granted 250,017 restricted stock units and 50,000 stock options over the past five years. He has expressed his intent to exercise the unexercised and vested/ to be vested options till the completion of his tenure on 31 March 2025. His FY22 and FY23 compensation aggregated Rs. 180.3 mn and Rs. 93.2 mn respectively (including fair value of ESOPs granted). He was previously granted Restricted Stock Units (deeply discounted options, exercise price = face value of Rs. 10.0) for each of the years from FY19 to FY22. However, we note that in FY23, he was granted stock options close to market price (10% discount to market price) ensuring greater alignment of his compensation to shareholder's interests. His overall remuneration, on account of perquisite value arising out of stock options exercised, may exceed the regulatory threshold of 5% of net profits. We factor in stock options at the time of the grant and not at the time of exercise: companies factor in perquisite value of stock options at the time of exercise. We support the resolution. |

| July to September 2023 | 20/09/2023 | UNO Minda Limited.       | AGM | MANAGEMENT | Approve issue of equity/equity linked securities up to Rs. 15.0 bn and issue of debt securities up to the borrowing limit                            | FOR | FOR | If the company raises the entire funds through issue or equity/equity-linked securities at the current market price of Rs. 631.2 (on 5 September 2023), the company will need to issue ~ 23.8 mn shares. This will result in equity dilution of ~4.0%, on the post-issue share capital of the company.<br>The shareholders had approved the borrowing limit of Rs. 30.0 bn in June 2023. The company now proposes to issue debt securities up to the borrowing limit. The outstanding consolidated debt stood at ~Rs. 12.5 bn as on 31 March 2023 and the company's debt programs are rated ICRA AA+/Stable/ICRA A1+ which denotes a high degree of safety. If the company raises debt to the extent of the borrowing limit, its consolidated debt/equity will stand at ~ 0.7x based on the net worth as on 31 March 2023. The proposed fund raise is a part of the growth strategy and to augment the long-term resources of the company and general corporate and other purposes. The validity of the approval is 365 days from obtaining shareholder's approval.<br>However, we expect the company to have presented two separate resolutions for raising equity/equity linked securities up to Rs. 15.0 bn and raising debt securities up to the borrowing limit.<br>Notwithstanding, we support this enabling resolution as it will aid in augmenting the company's capital base. |

Further, in the absence of Rehabilitation and Resettlement policy for Utkal E block and in the absence of option by the Project Displaced Families for Utkal D for cash settlement or annuity, the obligation could not be measured, and therefore not accounted as capital asset/expenditure. | July to September 2023 | 22/09/2023 | Mankind Pharma Limited | AGM           | MANAGEMENT | Ratify extension of ‘Mankind Employee Stock Option Plan 2022’ to the employees of group companies including subsidiary companies and associate companies                                                 | FOR | AGAINST | Our views on this resolution are linked to our views on resolution #6. Further, we generally do not support extension of schemes to associate companies, as these associates may have their own ESOP schemes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| July to September 2023 | 22/09/2023 | Mankind Pharma Limited | AGM | MANAGEMENT | Ratify 'Mankind Employee Stock Option Plan 2022' under which up to 8,175,274 stock options can be granted                                                                                                           | FOR | AGAINST | Under the scheme, options exercisable up to 8,175,274 equity shares will be issued to employees. Of these, 1,046,512 options have already been granted Pre-IPO and the balance 7,128,762 options are available for grant. The maximum dilution for the total scheme is ~2.0%, on the extended capital base. The annual cost of the scheme is ~ Rs. 2.5 bn, which is 15.0% of the consolidated FY23 PBT. The exercise price will be at the discretion of the NRC, with the exercise price not being lower than the face value of Re. 1.0 per share. This allows the company to grant these stock options at a deep discount. We do not favour ESOP schemes where the options are granted at a significant discount to the market price (greater than 20%). We believe that ESOPs are 'pay at risk' options that employees accept at the time of grant, which is protected if the ESOPs are issued at significant discount to the market price. In the absence of clarity on the exercise price, we cannot support this scheme as there is no define formula to determine exercise price. |

| July to September 2023 | 22/09/2023 | CIE Automotive India Ltd. | POSTAL BALLOT | MANAGEMENT | Approve divestment of entire stake in Jeco Jellingaus GmbH (Jeco), Gesenkschmiede Schneider GmbH (GSA), Falkenroth Umformtechnik GmbH (FUG) and Schoneweiss & Co. (SCG) held by CIE Forging Germany GmbH (CFG) a stepdown wholly owned subsidiary of CIE Automotive India to Mutares SE & Co KGaA for a cash consideration of EUR 25.0 mn | FOR | FOR | The German Forging Business is carried out by four wholly owned subsidiaries of CFG: Jeco, FUG, GSA and SCG. CIE Automotive India seeks approval to divest its German Forging Business currently housed under its step down wholly owned subsidiary: CFG to Mutares SE Co. KGaA for a cash consideration of EUR 25.0 mn, which includes EUR 2.3 mn that is subject to the realization of certain financial assets. Although it is difficult to find comparable for the valuation, we believe the valuation of the business may be low in a relative context. There is no clarity on how the valuation has been arrived at – it may likely be a negotiated price with Mutares SE & co KGaA. Nevertheless, we recognize that the German forgings business has low margins and high debt – therefore, selling the business will likely improve capital structure and margins over the longer-term. We note that CIE Automotive India recorded an impairment loss on the German forging business aggregating Rs.9.23 mn in 2022. Further, we note that the board had decided to exit the business as a part of CIE Automotive's global strategy to focus on the EV portfolio.               |

Given the conflict of interest, we do not support his appointment as independent director. We believe the company must appoint him in a non-independent non-executive capacity.                                                                                                                                                                                                                                                                                                                                                                                                                               |

| July to September 2023 | 24/09/2023 | VIP Industries Ltd.            | POSTAL BALLOT | MANAGEMENT | Appoint Ms. Neetu Kashiramka (DIN: 01741624) as Managing Director and Chief Financial Officer for three years from 14 November 2023                         | FOR | FOR | Ms. Neetu Kashiramka, 49, is presently Executive Director and Chief Financial Officer of the company since 7 April 2020. She was appointed to the board of the company on 8 May 2023. The company proposes to appoint her Managing Director and CFO w.e.f. 14 November 2023. Anindya Dutta, outgoing Managing Director, received Rs. 47.9 mn (including fair value of stock options) in FY23. We estimate her FY24 remuneration as MD and CFO at Rs. 75.3 mn. The company has capped the performance linked incentive payable to her in absolute terms and has also disclosed grant of ESARs to her. However, we expect companies to disclose performance metrics that determine variable pay. The proposed remuneration is high for the size and scale of the company. Even so, we support the resolution since the company needs to stabilize a Managing Director – the company has had two resignations from that role over the past four years. We recognize that Neetu Kashiramka is a professional whose skills carry market value. |
| July to September 2023 | 25/09/2023 | Bikaji Foods International Ltd | NCM           | MANAGEMENT | Approve scheme of amalgamation of Hanuman Agrofoods Private Limited (HAPL), wholly owned subsidiary, with Bikaji Foods International Limited (BFIL)         | FOR | FOR | During FY23, BFIL had acquired 28,13,050 equity shares (99.65%) of total equity of HAPL by way of conversion of Compulsorily Convertible Cumulative Preference Shares on 01 January 2023 and on 25 January 2023 BFIL further acquired remaining 10,000 equity shares (0.35%) of total equity of HAPL. The proposed merger will consolidate operations, simplify the group structure and may result in optimal utilization of resources. Since HAPL is a wholly owned subsidiary, the current shareholding of BFIL in HAPL shall stand cancelled and the shareholding pattern of BFIL will not change after the merger. There will be no material impact on the consolidated financials of BFIL and given no shares are to be issued, there is no change in the economic interest for the shareholders.                                                                                                                                                                                                                                    |

| July to September 2023 | 26/09/2023 | Mold-Tek Packaging Ltd. | AGM | MANAGEMENT | Reappoint J Lakshmana Rao (DIN: 00649702) as Chairperson and Managing Director for five years from 1 April 2024 and fix his remuneration as minimum remuneration, the payment of which may be shared with Mold-Tek Technologies Limited (a group company)  | FOR | AGAINST | J Lakshmana Rao, 64, is Chairperson and MD of the company. He is also the Chairperson and MD of group company, Mold-Tek Technologies Ltd, from where he received remuneration of Rs. 8.4 mn in FY23. We estimate his remuneration for FY24 at Rs 30.4 mn and for FY25 at Rs 34.7 mn (from Mold-Tek Packaging). He is entitled to commission at 1.5% of profits which has not been capped. We raise concern that he will get an annual increment of 14% on gross salary every year, irrespective of company performance: which is high. We believe that the company must increase remuneration only in line with company performance. Hence, we do not support the resolution. The notice states he will not be liable to retire by rotation – it is unclear if he will be liable to retire by rotation when he ceases to be Chairperson and Managing Director and chooses to continue in a non-executive capacity. If he remains as a non-rotational director, he may get board permanency. However, we draw comfort from SEBI's new amendments effective 1 April 2024 which require shareholder approval for all directors at least once in five years.      |
| July to September 2023 | 26/09/2023 | Mold-Tek Packaging Ltd. | AGM | MANAGEMENT | Reappoint P Venkateswara Rao (DIN: 01254851) as Deputy Managing Director for five years from 1 April 2024 and fix his remuneration as minimum remuneration and approve his continuation on the board on attaining 70 years of age during his proposed term | FOR | FOR     | P Venkateswara Rao, 66, is Deputy MD, Mold-Tek Packaging Ltd. He is in charge of overall marketing and commercial activities of the company for the past thirty years. He has over forty-four years of experience in the field of material management and project execution and coordination. He was paid a remuneration of Rs 20.6 mn in FY23. He is entitled to commission at 0.5% of profits which has not been capped. We estimate his remuneration for FY24 at Rs 28.6 mn and for FY25 at Rs 31.0 mn which is commensurate with the size of the company and its performance in FY23. As a good practice, Mold Tek Packaging should cap the commission payable in absolute terms and must disclose the performance parameters that determine his variable pay. Further, he will get an annual increment of 7% on gross salary every year – the company must increase remuneration only in line with company performance. We note that the promoter remuneration for FY23 aggregated Rs. 114.1 mn or 11.1% of Consolidated PBT. Nevertheless, his remuneration, at individual level, is reasonable given his experience. Hence, we support the resolution. |

The auditors have raised emphases of matters pertaining to the subsidiaries, Punjab Logistics Infrastructure Limited (PLIL), Fresh & Healthy Enterprises Limited (FHEL) and CONCOR Air Limited (CAL) in the consolidated financial statements. The auditor has also pointed out material weaknesses in the internal financial controls of CONCOR's subsidiary, CONCOR Air Limited. We note that the Comptroller & Auditor General of India has not commented on this matter. We also draw comfort in the fact that the financial statements are reviewed by the Comptroller & Auditor General of India (C&AG). |

Nanda & Co. as statutory auditors by the C&AG for FY23 and authorize the board to fix the remuneration of statutory auditors and branch auditors | FOR | FOR | S. N. Nanda & Co. were appointed as the statutory auditors for FY23 by the Comptroller & Auditor General of India (C&AG). The appointment of the Statutory Auditors for FY24 are yet to be made by the C&AG. As per Section 142 of the Companies Act, 2013, shareholder approval is required to authorize the board to fix the remuneration of statutory auditors at appropriate level. The statutory auditors were paid Rs. Rs. 1.9 mn in FY23 (excluding fees for tax audits, reimbursements, fees for other services) which is reasonable considering the size of the company. We expect the audit fees for FY24 to be in the same range. While we understand that the company is awaiting communication from C&AG regarding auditor appointment and remuneration, we believe that being a listed entity, the company must disclose the proposed auditor and the auditor remuneration to shareholders. |

| July to September 2023 | 27/09/2023 | Max Healthcare Institute Ltd. | AGM | MANAGEMENT | Approve alteration to the Articles of Association (AoA) to insert Article 92A for appointment of director nominated by the debenture trustee                                             | FOR | FOR | While the company did not issue any debentures in FY23, the board has given an in-principle approval in February 2023 to issue debentures on a private placement basis, upto Rs. 42.0 bn. Amendments to regulations now require a company's AoA to provide for appointment of directors nominated by debenture trustees in case of default. The company proposes to insert Article 92A following this amendment. The director appointed by the debenture trustee shall not be liable to retire by rotation. While we generally do not support the appointment of directors not liable to retire by rotation as it creates board permanency, we recognize that this ensures protection of lenders' interest and is being done to comply with regulations. Therefore, we support the resolution. The Articles of Association include terms of the shareholder agreement entered into between Abhay Soi and Kayak Investments Holding Pte. Ltd. (KKR). However, we note that KKR has divested its entire stake in the company and thus, the terms of such agreement may no longer be relevant. |

He is the father-in-law to company's promoter and Managing Director – Abhay Soi. He attended all six board meetings held in FY23 since his appointment on 31 August 2022. We raise concern that his membership of the nomination and remuneration committee has the potential to create a conflict of interest. Notwithstanding, he retires by rotation and his reappointment is in line with statutory requirements.                                                                                                                                                                                                                                                                                                                                                  |
| July to September 2023 | 27/09/2023 | Max Financial Services Ltd.   | POSTAL BALLOT | MANAGEMENT | Approve material related party transactions of Rs. 16.1 bn between Max Life Insurance Company Limited (Max Life), an 87% subsidiary, and Axis Bank Limited, a related party of Max Life, for subscription of equity shares of Max Life by Axis Bank Limited | FOR | FOR | In February 2020, the company and Axis Bank Limited entered into a confidentiality and exclusivity arrangement to explore a long-term strategic partnership. The company had sought shareholder approval for divestment of 29% equity stake in Max Life in June 2020, and this was approved by the shareholders. After a series of transactions, and recommendations and guidance by RBI and IRDAI, Axis Bank and its group entities now hold ~13% stake in Max Life. Max Life now proposes to transfer an additional ~7% stake in the company to Axis Bank – aggregating to 142,579,161 equity shares at a fair market value of Rs. 113.06 per equity share. We support the transaction, as it is in line with the MFSL's original plan to divest 29% stake to Axis Bank.                                                                           |

| July to September 2023 | 27/09/2023 | Max Financial Services Ltd. | POSTAL BALLOT | MANAGEMENT | Approve variation in terms and conditions of the arrangements with Axis Bank Limited and its subsidiaries with respect to Max Life Insurance Company Limited | FOR | FOR | MFSL proposes to transfer ~7% additional stake in Max Life, a material subsidiary, to Axis Bank and its affiliates (Axis Bank group): the Axis Bank group already holds 13% in Max Life under the initial agreement with Max Financial Services Limited (MFSL). Axis group eventually intends to hold 30% equity stake in Max Life – this was approved by shareholders in 2020. MFSL seeks to vary the initial agreements terms: under the new terms, Axis Bank will have five directors and MFSL will have two directors on Max Life’s board. Axis Bank will have quorum rights, veto rights on matters where both parties do not agree and the right to appoint a Chairperson on Max Life’s board. We understand that even with ~20% stake in Max Life, Axis Bank is the controlling partner, responsible for its operations and scalability, with MFSL acting as the financial partner. Given the strategic important of this partnership to MFSL, we support this resolution. Post completion of the reverse merger of Max Life into MFSL (as outlined in agreement), Axis Bank will become shareholders in a listed company and will have to conform to all norms outlined by IRDAI and other regulatory authorities. Further, in line with regulations, any special rights will require periodic shareholder approval. |

| July to September 2023 | 28/09/2023 | Crompton Greaves Consumer Electricals Ltd. | POSTAL BALLOT | MANAGEMENT | Approve alteration to Articles of Association (AoA) to insert Article 113A for appointment of director nominated by debenture trustee                                                    | FOR | FOR | Amendments to SEBI regulations require a company's AoA to provide for appointment of directors nominated by debenture trustees in case of default. The company's Non-Convertible Debentures (NCDs) are listed on the National Stock Exchange of India Limited. Catalyst Trusteeship Limited is the trustee for the said NCDs. The company seeks to insert Article 113A to its AoA to comply with the amended regulations. We recognize that the nominee appointed by the debenture trustee will not be liable to retire by rotation. While we generally do not support the appointment of directors not liable to retire by rotation as it creates board permanency, we recognize that this ensures protection of lenders' interest and is being done to comply with regulations. The copy of the draft AoA is available on the company's website. |

Hence, we support the resolution. |

| July to September 2023 | 29/09/2023 | PNC Infratech Ltd. | AGM | MANAGEMENT | Reappoint Gauri Shankar (DIN: 06764026) as Independent Director for a second term of five years from 29 September 2023             | FOR | FOR | Gauri Shankar, 67, was the Chief Executive Officer and Managing Director of Punjab National Bank. He has been on the board since May 2018. He has attended all five board meetings in FY23. We note that aggregate promoter compensation in FY23 was Rs.363.0 mn, which formed almost 10% of consolidated employee benefit costs, while the professional Executive Director remuneration amounted to Rs. 19.7 mn. As the Chairperson of the NRC, Gauri Shankar must ensure the promoter remuneration is not disproportionately high. Further, we believe shareholder approval for his reappointment should have been sought on or before the completion of his current term on 29 September 2023. He was first appointed on the board on 23 May 2018 and his first term as Independent Director was regularised on 29 September 2018 for five years. Therefore, his overall association with the company will exceed ten years towards the end of his second term. Notwithstanding, his reappointment is in line with statutory requirements. |

| July to September 2023 | 29/09/2023 | Gujarat Gas Ltd. | AGM | MANAGEMENT | Authorize the board to fix remuneration of joint statutory auditors appointed by the Comptroller and Auditor General of India for FY24  | FOR | FOR | The Comptroller & Auditor General of India (C&AG) appoints the statutory auditors. As per Section 142 of the Companies Act, 2013, shareholder approval is required to authorize the board to fix the remuneration of statutory auditors at an appropriate level. In FY23, the statutory auditors were paid an audit fee of Rs 2.9 mn which is commensurate with the size and complexity of business: we expect audit fees in FY24 to be in same range. The company has neither disclosed the names of the auditor proposed to be appointed nor a range in which the audit fee shall be paid. While we understand that the company is awaiting communication from C&AG regarding auditor appointment and remuneration, we believe that since Gujarat Gas Limited is a listed company, it must disclose the proposed auditor remuneration to shareholders.                                                                                                                                                                                                                                |

He has worked in the Finance Department of the Government of Gujarat, as the Secretary (Expenditure) and as the Secretary (Economic Affairs).</p> <p>He will not draw any remuneration from the company. The company has not disclosed his tenure of appointment: we expect public sector enterprises to disclose the proposed appointment terms through the meeting notice. While he is not liable to retire by rotation as long as he holds the position of MD, his reappointment as MD will require periodic shareholder approval.</p> <p>We raise concern that he holds three executive positions, including two listed entities (Gujarat Gas Limited and GSPL). Therefore, his ability to devote sufficient time to three separate entities is unclear. We note that Milind Torawane's appointment as Joint MD of GSPL received significant shareholder pushback: 64.43% institutional shareholders voted against his appointment. Given his excessive executive responsibilities, we do not support his appointment.</p> <p>Further, while not required under the regulations, we expect the company to seek shareholders' approval within three months of the board appointment.</p> |

| July to September 2023   | 30/09/2023 | Ramco Cements Ltd.                  | POSTAL BALLOT | MANAGEMENT | Approve continuation of M B N Rao (DIN:00287260) as Independent Director after attaining 75 years of age on 19 June 2023 till the end of his current term on 31 March 2024 | e   | AGAINST | MB N Rao, 75 is former CMD Indian Bank and Former CMD of Canara Bank. He is serving on the board since 5 August 2009. Amendments in SEBI's LODR require directors having attained the age of 75 to be approved by shareholders by a special resolution. M B N Rao attained the age of 75 years on 19 June 2023. While we do not consider age to be a criterion for board memberships, the company should have sought shareholder approval for his continuation on or before 19 June 2023. However, he has been an Independent Director on the company's board for 14 years. We believe that the length of tenure is inversely proportionate to the independence of a director. Therefore, we consider him as non independent due to his long association (>10 years) with the company. The company must reappoint him as Non-Executive Non-Independent Director. |

| October to December 2023 | 20/10/2023 | TVS Motor Co. Ltd.         | POSTAL BALLOT | MANAGEMENT | Reappoint K N Radhakrishnan (DIN: 02599393), as Director and Chief Executive Officer (CEO) for five years from 23 October 2023 and fix his remuneration | FOR | FOR     | K N Radhakrishnan, 60, Director and CEO has been on the board since 2019 and with the company since 2004. During FY23, he was paid a remuneration of Rs. 148.6 mn – 70% being variable in the form of commission of upto 5% of profits. His proposed remuneration estimated at Rs. 160.4 mn, is 68% variable - aligned to company performance, commensurate with the size and scale and complexity of the business and in line with peers. We raise concern that his commission is uncapped, without any clarity on performance metrics that govern the payout. We believe his commission payout must be linked to the achievement of pre-set targets and the board must set a cap in absolute amounts on the maximum annual remuneration payable to him thought his term. Notwithstanding, we support the resolution.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| October to December 2023 | 23/10/2023 | KFin Technologies Limited. | EGM           | MANAGEMENT | Approve buyback of 1,000 non-convertible redeemable preference shares (RPS) of face value Rs 200.0 each for a consideration aggregating Rs. 1.34 bn     | FOR | AGAINST | In October 2021, the company granted 1,000 RPS carrying a redemption premium of Rs 1.34 bn (incl. taxes) to Adhiraj Parthasarathy as consideration for the termination of SHA 2017 and extinguishment of all rights of the CP Group and of Adhiraj Parthasarathy thereunder (including right to subscribe to additional equity shares of the Company). The company has not provided any granular details about the contents of SHA 2017 and the quantum of share subscription rights held by the CP Group and Adhiraj Parthasarathy. Adhiraj Parthasarathy is the son of C Parthasarathy. The CP Group (including C Parthasarathy) are the company's previous promoters and are currently being investigated by the Enforcement Directorate (ED) in relation to a money laundering case. As per the company's RHP, the company received a letter dated 9 December 2022 from the ED requiring the company to not allow transfer/disposal of attached properties of the CP Group (i.e., the 14.12% equity stake held by the CP Group in KFin Technologies) until further direction. The company has clarified that the preference share capital held in the name of Adhiraj Parthasarathy is not covered under the attached properties of the CP group (as on 11 October 2023) - even so, it is unclear if these preference shares carry any other encumbrances. The company has not disclosed the basis of arriving at a consideration of Rs. 1.34 bn. Given the lack of disclosures about contents of SHA 2017 and basis to arrive at the final consideration, we do not support the resolution. |

| October to December 2023 | 16/11/2023 | Maruti Suzuki India Ltd.                    | POSTAL BALLOT | MANAGEMENT | Approve material related party transactions with Suzuki Motor Corporation (SMC) to purchase 100% equity stake in Suzuki Motor Gujarat Private Limited (SMG) from SMC for an aggregate consideration of Rs. 128.4 bn                  | FOR | FOR | <p>Maruti Suzuki India Limited (MSIL) seeks approval to terminate the Contract Manufacturing Agreement (CMA) dated 17 December 2015 entered into with SMG. MSIL intends to purchase the outstanding equity shares of SMG amounting to 100% equity stake held by Suzuki Motor Corporation for a total consideration of Rs. 128.4 bn, the net book value of SMG as per 31 August 2023 audited financials. SMC is MSIL's promoter and SMG is currently a wholly owned subsidiary of SMC.</p> <p>The consideration will be fulfilled via issue of 12.3 mn equity shares of MSIL to SMC through a preferential issue. On completion of the transaction, SMG shall become a wholly owned subsidiary of MSIL.</p> <p>The termination of the CMA will enable the reorganization and restructuring of MSIL to meet the group's future strategy: MSIL aims to double its production capacity to 4 million by FY31, which will require a doubling of its existing 2 million capacity in the next seven years. The restructuring of MSIL is intended to streamline processes to take and implement decisions quickly. Having SMG as a major production site and being a wholly owned subsidiary of MSIL would ease compliance requirements.</p> <p>The transfer is being done at net book value. Further, the overall dilution due to issue of equity shares as consideration for the transfer (see resolution 2) is ~3.9% on the expanded capital base, which is reasonable.</p> |
| October to December 2023 | 16/11/2023 | Maruti Suzuki India Ltd.                    | POSTAL BALLOT | MANAGEMENT | Approve preferential issue of upto 12.3 mn equity shares at Rs. 10,420.85 per share to Suzuki Motor Corporation (Promoter) aggregating Rs. 128.41 bn, as consideration for acquisition of Suzuki Motor Gujarat Private Limited (SMG) | FOR | FOR | <p>MSIL proposes to terminate the Contract Manufacturing Agreement ("CMA") executed with Suzuki Motor Gujarat Private Limited dated 17 December 2015 and purchase of 100% of the equity shares of SMG owned by Suzuki Motor Corporation. This will make SMG a 100% subsidiary of MSIL and will enable MSIL greater control over SMG's operations. The consideration for such purchase of SMG's equity shares will be via issue of 12.3 mn MSIL equity shares to SMC. The preferential allotment to SMC will increase their shareholding in MSIL from 56.48% to 58.17% and lead to a dilution of ~3.9% on the expanded capital base which is reasonable. While MSIL could have made the payment in cash given the cash amounting to RS. 0.4 bn and liquid investments in debt mutual funds amounting to Rs. 458.5 bn as on 31 March 2023, we understand that it seeks to conserve cash in order to fund its growth plans. Therefore, we support the resolution.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| October to December 2023 | 24/11/2023 | Procter & Gamble Hygiene & Health Care Ltd. | AGM           | MANAGEMENT | Approve payment of commission to Non-Executive Directors upto 1% of net profits for five years from 1 July 2023                                                        | FOR | FOR     | The company has been judicious in paying commission to non-executive directors in the past at ~0.1% of PBT, which is reasonable. Under ESOP 2023, vesting is performance based: however, the company has not disclosed performance criteria for vesting of the options. The exercise price shall be the market price on the date immediately prior to the date of the grant. However, the NRC will have power to provide a discount not more than 15% of the market price. Given that options will be issued at close to market price, we believe this scheme will ensure alignment of interests between the investors and employees of the company.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

Given his background and qualifications, Suven is expected to benefit from the presence, guidance and experience of Dr Raju.</p> <p>The notice and explanatory statement already disclose that Dr. Raju is the managing director of Cohance Lifesciences Limited, and he has opted for not drawing remuneration from Suven, which the board of Suven has accepted. Accordingly, Suven is not required to make any payments to Dr. Raju, but still benefit from his position and experience. Hence, his compensation is not mentioned. As per the company, in the future, subject to applicable laws and all requisite corporate &amp; board approvals, if Suven implements a stock option plan, then, Dr. Raju will be considered for such plan. Further, as Suven grows, subject to applicable laws and all corporate and board approvals, remuneration to Dr. Raju will be considered as per company. Given this background, lack of payment ought not to be considered as a lack of incentive towards the long-term growth.</p> <p>Moreover, Suven management does not envisage any conflict of interest as well, as there is no overlap amongst key customers or key molecules across Suven &amp; Cohance.</p> |

He is also a Director on the board of Mafatlal Industries – part of the promoter group, since May 2015. Regulations allow whole time directors of listed companies to be independent directors in a maximum of three listed companies. He is an Independent Director on the board of seven listed companies including NOCIL limited. We believe that his responsibilities as Partner of SSPA & Co, Chartered Accountants are equivalent to a whole-time directorship. Therefore, the high number of directorships in listed companies is not in keeping with the spirit of the regulation. We do not support the resolution.                                                                                                                                                                                                                                                                                                                      |

She has over eleven years of experience in business development. She holds a Bachelor of Arts from Scripps College, California and has completed EY-ISB Executive Program on Board Effectiveness. She is being appointed as Whole-time Director at an estimated remuneration of Rs. 7.9 mn for FY24. We understand that Ms. Avantika Saraogi has received Rs. 3.6 mn in FY23 and Rs. 3.1 mn in FY22 as retainership fees. This exceeds the statutory thresholds of Rs. 0.25 mn per month under Section 188 of the Companies Act, 2013 and the company should have sought shareholder approval for the payment. The company must provide clarity on why such approval has not been sought. Further, there is inadequate clarity around the quality of her previous experience and her responsibilities as Business Lead: New Initiatives. Further, the company must clarify how her remuneration has been benchmarked against professionals with similar experience. Given this lack of clarity, we do not support her appointment. |

| January to March 2024 | 10/01/2024 | Ashok Leyland Ltd.      | POSTAL BALLOT | MANAGEMENT | Approve related party transactions between Ashok Leyland Limited and Optare Plc (Optare) aggregating to Rs. 16.0 bn and Optare Plc with Switch Mobility Limited, UK (Switch UK) in excess of Rs. 10.0 bn or 10% of consolidated turnover, whichever is lower, for FY24 | FOR | FOR | Optare is a 92.19% subsidiary of Ashok Leyland Limited, while Switch UK is a 98.42% subsidiary of Optare. Ashok Leyland proposed to infuse Rs. 12 bn as equity into Optare and carry out other transactions upto Rs. 4 bn with Optare. Further, Optare's transactions with Switch UK include investment in equity, provision of guarantees, loan obligations, R&D expenses, reimbursement/recovery of expenses and any other transactions. We note that Ashok Leyland has invested Rs. 6.6 bn in Optare in December 2023: increasing the company's shareholding in Optare to 92.19% from 91.63%. We understand that the equity infusion is based on an independent valuation report and Ashok Leyland's increased equity stake also reflects the dilution caused to its existing shareholding. The company has also clarified that Hinduja Automotive Limited's (HAL, promoter company) equity stake in Optare is the result of conversion of a loan into equity during the COVID pandemic: the company does not expect HAL to continue supporting Optare in the future. The company should have provided granular details on the valuation at which incremental equity will be infused into Optare. Further, the company should have disclosed past transactions with both Optare and Switch UK. The resolution seeks approval for operational as well as any other transactions that may be carried out, and is therefore, enabling in nature. The company should have sought approval for each related party transaction separately. Notwithstanding, we understand the need to support the two subsidiaries given the capital-intensive nature of the EV business carried out through Optare and Switch UK. Therefore, we support the resolution. |

His proposed remuneration terms are unchanged from the previous terms approved at the 2022 Postal Ballot. While he is not liable to retire by rotation, we understand that as MD, his reappointment will need periodic shareholder approval. He received Rs. 36.1 mn as remuneration in FY23 which was 17.7 times the median employee remuneration. We estimate his FY24 remuneration in the range of Rs. 39.7 mn to Rs. 49.0 mn. We observe that part of his remuneration structure is aligned with the performance of the global parent and not that of 3M India since he is eligible to receive SARs/RSUs from 3M USA. The company must provide details on the quantum of stock options that may be granted to him over his tenure. Further, the company must provide granular clarity on variable remuneration and the performance metrics for variable pay. Notwithstanding, his total remuneration is commensurate to the size and complexity of the business. |

Natarajan, 58, was reappointed as Whole time Director and Chief Operating Officer for three years in the 2022 AGM. He has been with the company since April 1993. Both the MD & CEO – U Shekhar and K Natarajan as COO were paid a remuneration of Rs. 20.0 mn in FY23 which was 57.1x the median employee remuneration. We estimate his annual remuneration to be a maximum of Rs. 34.2 mn. We believe this is in line with peers and commensurate with the overall performance of the company. However, the annual commission has not been capped. As a good governance practice, we expect companies to put an absolute cap on the commission payable to executive directors. Further, the company must also disclose performance metrics used to determine variable pay.                                                                                                                                                                                                                                                                                                                                        |

| January to March 2024 | 18/01/2024 | Larsen & Toubro Ltd. | POSTAL BALLOT | MANAGEMENT | Approve material related party transactions aggregating up to Rs. 36.0 bn with L&T Metro Rail (Hyderabad) Limited (LTMRHL) till the maturity of the borrowings availed by LTMRHL | FOR | FOR | LTMRHL is a 99.99% subsidiary of the company. The company proposes to provide Parent Company Guarantees towards the borrowings to be availed by LTMRHL. These PCGs will be valid till the maturity of the borrowings availed by LTMRHL. While the company has not specified a tenure for the validity of the shareholder approval for these PCGs, they have clarified that these transactions are omnibus in nature and as per regulations, the validity of shareholder approval will be one year. Given this, we support these transactions as these PCGs will enable LTMRHL to borrow funds at competitive rates. Further, we draw comfort from that fact the extension of this guarantee is to a 99.99% subsidiary                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| January to March 2024 | 18/01/2024 | Larsen & Toubro Ltd. | POSTAL BALLOT | MANAGEMENT | Approve material related party transactions with Larsen Toubro Arabia LLC aggregating up to Rs. 125.0 bn or USD 1,500.0 mn, whichever is higher                                  | FOR | FOR | The Company has various subsidiaries which are formed in accordance with the requirement of local laws for the purpose of bidding and execution of Engineering, Procurement and Construction (EPC) contracts. Contracts entered into by these international subsidiaries usually have a clause which requires issuance of Parent Company Guarantees (PCGs) for execution of these projects. The value of these PCGs is equivalent to the full value of the contract. Such PCGs are to be issued upfront and are to be valid till the completion of all obligations under the contract. We believe the support extended to these international subsidiaries will enable them to bid and execute contracts in foreign countries. The transactions proposed are largely operational in nature, in the ordinary course of business and at arm's length. While the company has not specified a tenure for the validity of the shareholder approval for these PCGs, they have clarified that these transactions are omnibus in nature and as per regulations, the validity of shareholder approval will be one year. Given this, we support these transactions as we believe the obligations will be for a definite period and these funding transactions will support the bidding requirements of LTA and will be at arms' length. |

| January to March 2024 | 18/01/2024 | VRL Logistics Ltd. | POSTAL BALLOT | MANAGEMENT | Appoint Shiva Sankeshwar (DIN: 09236519) as Whole Time Director for five years from 18 January 2024 and fix his remuneration as minimum remuneration         | FOR | AGAINST | Shiva Sankeshwar's annual remuneration is estimated at Rs. 10.6 mn. The company has not disclosed how the proposed remuneration benchmarks internally and whether Shiva Sankeshwar's experience and education is comparable to others within the same cadre. Further, our opinion is linked to Resolution #2, where his appointment as Director does not align with our guidelines. Further, we raise concern about the number of executive directors on the board: Post the appointment of Shiva Sankeshwar, there will be five executive directors (three promoters + two non-promoters) on the board, which is excessive given the size and operations of the company. |

The company states that it has expanded into new business verticals such as Aerospace and Advanced systems, Health and Medical and Electronics, among others. The proposed additions largely pertain to products which are synergistic and a natural extension of existing business portfolio.</p> <p>We note that the proposed clauses also include business activities such as manufacturing, generation, transmission, distribution, purchase and supply of electric power or any other energy, for captive consumption and to sell surplus power to third party: these activities are not directly related to company's current operational businesses. We believe it is the prerogative of the board and the management to decide on business diversification. However, the proposed diversification may pose execution and other business risks.</p> |

| January to March 2024 | 13/02/2024 | Suven Pharmaceuticals Ltd.    | POSTAL BALLOT | MANAGEMENT | Approve Suven Pharmaceuticals Limited Employee Stock Option Plan 2023 (ESOP 2023) under which options convertible into upto 12,500,000 equity shares may be issued | FOR | AGAINST | The overall dilution under ESOP 2023 will be 4.7% on the expanded capital base. The minimum exercise price is Rs. 495.0: this represents the price at which Advent International acquired ~50.1% equity in the company from the Jasti family and also the price at which public shareholders were able to tender shares under the open offer. Since the acquisition, the share price has appreciated and thus the exercise price of Rs. 495.0 represents a discount of ~30.1% to the current market price. This discount may further increase with a gain in the share price. We do not favour schemes where the exercise price could be at a significant discount to market price.                                                                                                                                                                                                                                                                                                                                                        |

| January to March 2024 | 02/03/2024 | Tata Steel Ltd. | POSTAL BALLOT | MANAGEMENT | Increase the material related party transactions limit with The Indian Steel & Wire Products Ltd (ISWP) for FY24 to Rs. 30.43 bn from Rs. 25.08 bn             | FOR | FOR     | The increase in limit follows the amalgamation of Tata Steel Long Products Limited (TSLPL) and the consequent addition of transactions between TSLPL with ISWP to the current limit. Further, due to increased demand, the existing business levels between the two companies are expected to increase by Rs. 100 mn. The nature of transactions include purchase and sale of goods, receiving and rendering of services, infusion of funds in ISWP through subscription in equity shares of ISWP and/or inter corporate loan, and other transactions of business. We support the resolution because ISWP, currently a 98.15% subsidiary, is expected to be amalgamated into Tata Steel Limited.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

He has completed his Master of Engineering degree in Mechanical Engineering from Loughborough University. He joined the company as a Management Trainee in 2021. His proposed remuneration shall not exceed Rs. 5.0 mn for FY24, Rs. 10.0 mn per annum for FY25 and FY26 and Rs. 20.0 mn per annum for FY27 and FY28. The company has disclosed that the actual pay-out to Rishabhayan Bajaj will be determined based on the remuneration policy and any changes to it will follow similar standards and practice as is done for all employees, to establish a fair and reasonable pay for him. Given the history of succession planning with the Bajaj family – Rahul Bajaj to Rajiv Bajaj – it is likely that Rishabh Bajaj too will go through the ranks before he is considered eligible to be named successor or join the board. Nevertheless, the company has not explained whether, given his less than three years of experience qualifies him to be Divisional Manager – Product Strategy. There is no disclosure on how the company has benchmarked his remuneration and designation with other employees in the company. Further, FY24 remuneration estimates have also not been provided. Moreover, the proposed caps on his annual remuneration are high, doubling every two years, which we consider ambitious. Therefore, the disclosures in the resolution do not fall within our voting guidelines. |

| January to March 2024 | 05/03/2024 | TVS Motor Co. Ltd.    | POSTAL BALLOT | MANAGEMENT | Reappoint R Gopalan (DIN: 01624555) as Independent Director for three years from 30 April 2024                                                                     | FOR | AGAINST | R Gopalan, 71, is a retired IAS Officer. He was a member of Public Enterprises Selection Board and was Secretary, Department of Economic Affairs. We raise concerns with R Gopalan's association with Zee Entertainment Enterprises Ltd (ZEEL). R Gopalan has been an Independent Director and Chairperson of the board of ZEEL since November 2019, and a member of its Audit Committee since 2020. During his tenure on the board, ZEEL's proposed merger with Culver Max Entertainment Private Ltd. and Bangla Entertainment Private Ltd (Sony) failed. ZEEL's FY23 profits before taxes declined by ~69% to Rs. 4.7 bn in FY23 (in comparison to FY22 profits), of which write-offs and provisions aggregated Rs. 2.3 bn. Further, during his term the Managing Director, Puneet Goenka's remuneration increased from Rs. 131.7 mn in FY21 to Rs 411.0 mn in FY22 before falling marginally to Rs. 350.7 mn in FY23. Recent media reports also suggest that SEBI has discovered a potential fund diversion aggregating Rs. 20 bn. Despite the number of events that have plagued ZEEL, the board has been silent and has allowed the company's promoters to take charge. As Chairperson, R Gopalan has failed to engage with investors and did not adequately deal with the governance issues nor assuage their various concerns. Since R. Gopalan has been on the board of TVS Holdings Ltd (ultimate holding company) since May 2016, we will factor in his current tenure as 7 years on account of his group association. We will classify R Gopalan to be non-independent, once his association with the group crosses 10 years, and assess board composition accordingly. |

It is the global Head Quarters of the Commercial Vehicle Business of ZF Group. The nature of transactions includes sale of goods/materials, rendering of services, purchasing of goods/materials and receiving/availing of services. It is unclear if availing of services (license fees on net sales) includes royalty payouts. However, we take comfort that no royalty has been paid to ZF CV Systems Global GmbH in the past three years. The limits sought are high when compared to the 9MFY24 transactions of Rs. 7.26 bn. The company should explain the need for high limits to its shareholders. Nevertheless, we support the resolution given that the transactions are operational in nature and will be in the ordinary course of business and at arm's length.                                                                                 |

| January to March 2024 | 21/03/2024 | Birlasoft Ltd.        | POSTAL BALLOT | MANAGEMENT | Approve payment of remuneration in excess of 5% of net profits to Angan Guha (DIN: 09791436), MD & CEO and consequently increase the managerial remuneration limit to 18% during the remainder of his tenure | FOR | FOR | Angan Guha, 54, is the Managing Director and CEO of Birlasoft Limited. He was appointed on the board for three years from 1 December 2022. His remuneration was approved for three years upto 1 December 2025. The company is now seeking approval to pay him remuneration in excess of 5% of the net profits and aggregate managerial remuneration in excess of 11% of net profits as the 5% prescribed limit would be breached during the remainder of his tenure on account of RSUs and PSUs granted to him. He received Rs. 278.2 mn as remuneration from 1 December 2022 till the end of FY23, including fair value of stock options. We estimate his FY24 remuneration at Rs. 379.5 mn, which is high when compared to industry peers and size of company. A large portion of his remuneration is in the form of long-term stock-based compensation including RSUs with time-based vesting, which effectively increases his assured pay. As a result, his variable pay is about 34.5% of aggregate pay, which is relatively low. However, we understand the company proposes to increase the ceiling on his remuneration to accommodate the perquisite value from the exercise of RSUs and PSUs that have already been granted. There are no other changes in the remuneration terms. Given this, we support the resolution. |

He attended all four board meetings held in FY23 and four out of five board meetings held in FY24 as on date of notice. We note that Samara Capital has invested in Marengo Asia Healthcare, a multispecialty hospital platform. Marengo is still a part of Samara Capital's portfolio. Public sources indicate that Marengo was jointly set up by Havells Family Investment Office, Godrej Family Investment Office and Samara Capital. We believe that there is an inherent conflict of interest due to the business linkage with the promoter group. The company must classify him as Non-Executive Non-Independent. We do not support his reappointment as independent director. |

| January to March 2024 | 23/03/2024 | UNO Minda Limited.     | POSTAL BALLOT | MANAGEMENT | Reappoint Ravi Mehra (DIN: 01651911) as Whole time Director designated as Deputy Managing Director for three years from 1 April 2024 and fix his remuneration | FOR | FOR     | Ravi Mehra, 62, is a Whole time Director designated as Deputy Managing Director and Head Group Corporate. He was paid a remuneration of Rs. 75.5 mn in FY23 (including fair value of stock options granted to him). For FY24, we estimate his remuneration to be Rs. 98.7 mn (including fair value of stock options granted to him). As per his terms of reappointment, we estimate his annual remuneration – including fair value of stock options to be granted to him – to be Rs. 114.4 mn. We note that his remuneration is higher than peers, however, we draw comfort from the fact that ~60% of his estimated remuneration is variable nature. Further, the stock options granted to him were at market price in FY22 and at a discount of ~13% in FY23. We believe this is a good practice. Also, we believe that he is a professional and his skills carry market value. Hence, we support the resolution. The company must disclose the performance metrics which will determine his variable pay.                                                                                                                                                                                                                                                                                                    |
| January to March 2024 | 24/03/2024 | JK Lakshmi Cement Ltd. | POSTAL BALLOT | MANAGEMENT | Appoint Bharat Hari Singhania as Chairperson Emeritus for life and Strategic Advisor for five years from 1 April 2024 and fix his remuneration                | FOR | FOR     | Bharat Hari Singhania, 85, is part of the promoter group and the President of JK Organisation. He has been the Non-Executive Chairperson of the company since 1 October 2021. He will step down from the board effective 1 April 2024 and the company proposes to appoint him as Chairperson Emeritus for life. He will mentor and guide the board and management on the matters relating to business strategy, corporate governance, other policy matters, and such other matters for which the board/management may seek his advice. His remuneration for five years is capped at Rs. 10.0 mn per annum subject to an annual increment of upto 10%, which is reasonable. While we do not encourage resolutions which are perpetual in nature, given that his remuneration is capped and is for five years, shareholders have the opportunity to reappoint him on a periodic basis. Hence, we support this resolution.                                                                                                                                                                                                                                                                                                                                                                                         |
| January to March 2024 | 24/03/2024 | JK Lakshmi Cement Ltd. | POSTAL BALLOT | MANAGEMENT | Approve intercorporate transaction limit of up to Rs. 25.0 bn over and above the limits specified under Section 186 of the Companies Act, 2013                | FOR | AGAINST | As on 31 December 2023, JK Lakshmi Cement had made investments and given loans to body corporates amounting to Rs. 25.8 bn, utilizing 97.2% of its automatic limit under section 186. The company has executed a share purchase agreement for acquiring 85% equity shareholding of Agrani Cement Private Limited (Agrani) for a cash consideration of Rs. 3.3 bn, which is to be paid on the achievement of various milestones. Agrani and its three wholly owned subsidiaries are called Trivikram Consortium. Trivikram Consortium has been jointly granted Mining Rights in Assam having limestone reserves of ~335.0 mn tonnes. The Trivikram Consortium would be used for setting up a clinkerization unit of 1.0 mn tonnes and cement grinding unit of 1.5 mn tonnes. The acquisition will help the company diversify into the north-east region and bring export opportunities. Thus, JK Lakshmi Cement is seeking approval to increase intercorporate limits under section 186 to meet long term objectives, and to make investment in and provide corporate guarantee against borrowings of Trivikram Consortium. However, we do not support rolling limits (linked to net worth) and recommend that companies seek shareholder approval for a fixed quantum. Hence, we do not support the resolution. |

| January to March 2024 | 27/03/2024 | ICICI Bank Ltd.              | NCM           | MANAGEMENT | Approve scheme of arrangement between the Bank and ICICI Securities Limited, a 74.8% subsidiary                                                | FOR | FOR     | The bank proposes to delist ICICI Securities Limited, its 74.8% subsidiary, through a scheme of arrangement. ICICI Securities Limited will continue to exist as a separate entity under ICICI Bank's fold. The delisting of its broking business will align with market practices – ICICI Bank's peers have held their broking business privately. The implied valuation of ICICI Securities Limited was at a premium of 2% to the closing price one day prior to the announcement, and at 23% to the closing price four days prior to delisting – the stock price ran up by over Rs. 100 in just four days prior to the announcement. At current market prices too, the implied valuation of ICICI Securities Limited is at a 3% discount to the market price, but at a 43% premium to the market price four days prior to the date of the announcement. Given the differences in size – ICICI Bank has a market capitalization of almost Rs. 7.6 trillion, while ICICI Securities Limited has a market capitalization of about Rs. 235 billion – the equity dilution will be limited at 0.8%. Therefore, we support the scheme. |
