I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- I. Mutual Fund Investments are subject to market risks, read all scheme related documents carefully.
- II. Mutual Funds and securities investments are subject to market risks and there can be no assurance or guarantee that the objectives of the Scheme will be achieved.
- III. Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- IV. As the price / value / interest rates of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down.
- V. The past performance of the Sponsors/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- VI. The name of the Scheme does not in any manner indicate either the quality of the Scheme, its future prospects or returns.
- VII. Canara Bank and ORIX Corporation Europe N.V (formerly Robeco Groep N. V.), being the Sponsors, are not responsible or liable for any loss resulting from the operation of the Scheme/s beyond the initial contribution of Rs. 10 Lacs made by it towards setting up Canara Robeco Mutual Fund.
- VIII. The present scheme is not a guaranteed or assured return scheme.

Scheme specific Risk Factors

Some of the specific risk factors related to the Scheme include, but are not limited to the following:

I. Risks associated with investment in Equity and Equity related instruments:

Equity and equity related securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted Securities may be affected if they have to be sold prior to the target date for divestment. All investments involve risks and there can be no guarantee against loss resulting from an investment in any share of the Scheme, nor is there any assurance that the Scheme's investment objective will be attained in respect of its overall performance. In certain circumstances the right of the investors of the Scheme may be suspended. Consequently, the NAVs of units issued under the Scheme may be adversely affected.

Further, the Equity and Equity Related Instruments are risk capital and are subordinate in the right of payment to other securities including debt securities, the value of the Scheme investments may be affected by interest rates, currency exchange rates, changes in law / policies of the government, taxation laws and political, economic or other developments which may have an adverse bearing on individual Securities, a specific sector or all sectors. Investments in equity and equity related securities involve a degree of risk and investors should not invest in the equity Schemes unless they can afford to take the risk of losing their investment.

The Fund Manager of the Scheme may invest in the Securities of smaller, lesser-known companies. These investments may involve greater risk and the possibility of greater portfolio price volatility than investing in larger, more mature or better-known firms. Amongst other reasons for the greater price volatility of Securities of small companies and unseasoned stocks are the less certain growth prospects of smaller firms, the lower degree of liquidity of the markets for such stocks, and the greater sensitivity of small companies to changing economic conditions. For example, these companies are associated with higher investment risk than that normally associated with larger firms due to the greater business risks of small size and limited product lines, markets, distribution channels and financial and managerial resources. Such Securities, including those of newer or recently restructured companies or those which may have experienced financial difficulties, may be more volatile in price than larger capitalized stocks. Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options.

The AMC may choose to invest in unlisted securities that offer attractive yields within the regulatory limit. This may however increase the risk of the portfolio. Additionally, the liquidity and valuation of the Scheme investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

The value of the Scheme investments may be affected by factors affecting capital markets generally, such as price and volume volatility in the stock markets, interest rates, currency exchange rates, foreign investments, changes in government policy, political, economic or other developments and closure of the stock exchanges.

Investment made in unlisted equity or equity-related securities may only be realizable upon listing of these securities.

Trading volumes, settlement periods and transfer procedures may restrict liquidity of investments in equity and equity related securities. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The length of the settlement may affect the Scheme in the event the Scheme has to meet large number of redemptions.

II. **Risks associated with investments in Fixed Income Securities**

Price-Risk or Interest - Rate Risk: Fixed income securities such as government bonds, corporate bonds and money market instruments and derivatives run price - risk or interest - rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.

Re - investment Risk: Investments in fixed income securities may carry re - investment risk as interest rates prevailing on the coupon payment or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

Liquidity or Marketability Risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.

Pre-payment Risk: Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Liquidity Risk: The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

Credit Risk: This is the risk associated with the issuer of a debenture / bond or a money market instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It must, however be noted that where the Scheme has invested in Government securities, there is no credit risk to that extent. . Corporate bonds carry a higher amount of credit risk than Government securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

Liquidity Risk on account of unlisted securities: The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

Different types of securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern e.g. corporate bonds carries a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.

III. **Risk associated with investing in Derivatives**

As and when Schemes trades in the derivatives market, there are risk factors and issues concerning the use of derivatives that investors should understand. Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that loss may be sustained by the portfolio as a result of the failure of another party (usually referred as the "counter party") to comply with the terms of the derivatives contract. Other risk in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

Derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value. Derivatives can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the Fund Manager involve uncertainty and decision of Fund Manager may not always be profitable. No assurance can be given that the Fund Manager will be able to identify or execute such strategies.

The risk associated with the use of derivatives is different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Derivatives may be riskier than other types of investments because they may be more sensitive to changes in economic or market conditions than other types of investments and could result in the losses that significantly exceed the Scheme's original investment. Certain derivatives may give rise to a form of leverage. Due to the low margin deposits normally required in trading financial derivative instruments, an extremely high degree of leverage is typical for trading in financial derivative instruments. As a result, the Scheme may be more volatile than if the Scheme had not been leveraged because the leverage tends to exaggerate the effect of any increase or decrease in the value of the Scheme's portfolio. A relatively small price movement in a derivative contract may result in substantial losses to the investor.

Derivatives are also subject to the risk that changes in the value of a derivative may not correlate perfectly with the underlying asset, rate or index. The use of derivatives for hedging or risk management purposes or to increase income or gain may not be successful; resulting in losses to the Scheme and the cost of such strategies may reduce the Scheme's returns and increase the Scheme's potential for loss.

The Scheme may use derivatives to hedge market and currency risk, and for the purposes of efficient portfolio management. The use of derivatives may expose the Scheme to a higher degree of risk. In particular, derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions are geared.

The price at which credit defaults swaps trades may differ from the price of the credit default swaps' referenced security. In adverse market conditions, the basis (difference between the spread bonds and the spread of credit default swaps) can be significantly more volatile than the credit default swaps' referenced securities.

Trading in derivatives has the following risks:

- a) An exposure to derivatives in excess of the hedging requirements can lead to losses.
- b) An exposure to derivatives can also limit the profits from a genuine investment transaction.
- c) Efficiency of a derivative market depends on the development of a liquid and efficient market for underlying securities.

d) Particular Risks of Exchange Traded Derivative Transactions

The securities exchange on which the shares of the Scheme may be listed may have the right to suspend or limit trading in all securities which it lists. Such a suspension would expose the Scheme to losses and delays in its ability to redeem shares of the Scheme.

e) Stock Market Fluctuations

Investors may note that the value of their investment may fall as well as rise and they may get back less than they originally invested. The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions.

f) Income Distribution cum Capital Withdrawal (Dividends)

The Scheme may distribute not only investment income, but also realised capital gains or capital. Where capital is distributed, this will result in a corresponding reduction in the value of shares of the Scheme, and a reduction in the potential for long-term capital growth.

g) **Warrants**

The Scheme may invest in warrants, the values of these warrants are likely to fluctuate more than the prices of the underlying securities because of the greater volatility of warrant prices.

h) **Futures and Options**

The Scheme may use options and futures on securities, indices and interest rates for the purpose of efficient portfolio management.

Transactions in futures and options carry a high degree of risk. A relatively small market movement will have a proportionately larger impact which may work for or against the investor. The placing of certain orders which are intended to limit losses to certain amounts may not be effective because market conditions may make it impossible to execute such orders.

i) **Listing**

In case the shares of the Scheme are listed, the exchanges on which those shares are listed will have no responsibility for the contents of any prospectus issued by the Scheme or will make no representations as to its accuracy or completeness and expressly disclaim any liability whatsoever for any kind of loss arising from or in reliance upon any part of any such prospectus.

IV. **Risks Associated with investing in Money Market Instruments**

- Investments in money market instruments would involve a moderate credit risk i.e. risk of an issuer's inability to meet interest and principal payments.
- Money market instruments may also be subject to price volatility due to factors such as changes in interest rates, the general level of market liquidity and market perception of creditworthiness of the issuer of such instruments.
- The NAV of the Units, to the extent that the corpus of the Scheme is invested in money market instruments, will be affected by changes in the level of interest rates. When interest rates in the market rise, the value of a portfolio of money market instruments can be expected to decline.

V. **Risk associated with Securities Lending**

Securities lending may involve the risk of default on the part of the borrower. However, this is unlikely to happen if the stock lending is carried out for stocks which are in dematerialised form and through an authorised stock lending scheme, subject to appropriate Regulations. The Investment Manager perceives such situations to be exceptional in nature. Although the Stock Market in India is still developing, considering the good demand for listed / quoted Equity Shares of reputed companies, the Scheme(s) may choose to meet repurchase needs through temporary borrowings, within the permissible limits.

VI. **Risk Factors Associated with Investments in REITs and InvITs**

Market Risk: REITs and InvITs Investments are volatile and subject to price fluctuations on a daily basis owing to factors impacting the underlying assets. AMC/Fund Manager's will do the necessary due diligence but actual market movements may be at variance with the anticipated trends.

Liquidity Risk: As the liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes, settlement periods, dissolution of the trust, potential delisting of units on the exchange etc, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio risk.

Reinvestment Risk: Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or IDCW pay-outs, etc. Consequently, the proceeds may get invested in assets providing lower returns.

Regulatory/Legal Risk: REITs and InvITs being new asset classes, rights of unit holders such as right to information etc may differ from existing capital market asset classes under Indian Law.

VII. **Risks associated with investing in Tri Party Repo through CCIL (TREPS):**

All the market repo and Tri-party repo, are settled through Clearing Corporation of India Limited (CCIL). CCIL acts as a Central Counterparty (CCP) to all trades received for settlement.

Risk of exposure in the TREPS, Repos & Reverse Repos in Government Securities/Treasury Bills emanates mainly on two counts — Risk of failure by a lender to make funds available or by a borrower to provide adequate collateral security to accept the fund at the first leg of borrowing and lending under Tri-party Repo transaction or Repo transactions in Government Securities / treasury Bills. Risk of default by a borrower in repayment.

VIII. **Risk factors associated with Creation of Segregated Portfolio**

Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer. Security comprising of segregated portfolio may not realise any value. Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further, trading price of units on the stock market may be significantly lower than the prevailing NAV.

XI. Other Risks

a) Stock Market Fluctuations

Investors may note that the value of their investment may fall as well as rise and they may get back less than they originally invested. The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions.

b) Dividends

The Scheme may distribute not only investment income, but also realised capital gains or capital. Where capital is distributed, this will result in a corresponding reduction in the value of shares of the Scheme, and a reduction in the potential for long-term capital growth.

c) Warrants

The Scheme may invest in warrants; the values of these warrants are likely to fluctuate more than the prices of the underlying securities because of the greater volatility of warrant prices.

In the event of substantial investment by the Sponsor/s, or its associates in the Scheme, any redemption by these entities may have an impact on the performance of the Scheme.

Canara Robeco Mutual Fund will not be responsible for any loss of tax benefits in the event of winding up of the Scheme or for any amendments in the tax laws that may affect the tax benefits available under the Scheme. The tax benefits are based on the present laws and rules in force.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme/Plan shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/Plan. However, if such limit is breached during the NFO of the Scheme, the Fund will endeavor to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme/Plan shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS

- Prospective investors should study this Scheme Information Document and Statement of Additional Information carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, financial, investment or any other matters and are advised to consult their legal, tax, financial and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest / redeem / hold Units.
- Neither this Scheme Information Document, Statement of Additional Information nor the Units have been registered in any jurisdiction. The distribution of this Scheme Information Document or Statement of Additional Information in certain jurisdictions may be restricted or totally prohibited due to registration requirements and accordingly, persons who come into possession of this Scheme Information Document or Statement of Additional Information are required to inform themselves about and to observe any such restrictions and / or legal compliance requirements.
- The AMC, Trustees or the Mutual Fund have not authorized any person to issue any advertisement or to give any information or to make any representations, either oral or written, other than that contained in this Scheme Information Document or the Statement of Additional Information or as provided by the AMC in connection with this offering. Prospective Investors are advised not to rely upon any information or representation not incorporated in the Scheme Information Document or Statement of Additional Information or as provided by the AMC as having been authorized by the Mutual Fund, the AMC or the Trustees.
- Mutual Fund, its Trustees, AMC, its directors, its employees & Sponsors shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in 'Statement of Additional Information (SAI)'.

- Redemption due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. Mutual Fund, their Trustees, AMC, their directors, their employees & Sponsors shall not be liable for any such tax consequences that may arise due to such redemptions.
- The liquidity of the Scheme's investments inherently restricted by trading volumes and settlement periods. In the event of an inordinately large number of redemptions or of a restructuring of the Scheme's investment portfolio, there may be delays in the redemption of units. Please refer to the section on "Right to limit repurchases".
- The value of the Scheme/s investments may be affected by factors affecting capital markets generally, such as price and volume volatility in the stock markets, interest rates, currency exchange rates, foreign investments, changes in government policy, political, economic or other developments and closure of the stock exchanges. The NAV of the Scheme will be sensitive to changes in Interest / Bank / Prime Lending Rates. In case of investment in Money Market Instruments and in Central / State Govt. Securities by the Scheme, an increase in the Interest / Bank / Prime Lending Rates will impact the market value of existing investments leading to decrease in the Scheme's NAV.
- Debt securities are subject to the risk of an issuer's inability to meet principal and interest payments on the obligations (Credit Risk). Debt securities may also be subject to price volatility due to such factors as interest sensitivity, market perception or creditworthiness of the issuer and general market liquidity (Market Risk). While it is the intention of the Investment Manager to invest primarily in highly rated debt securities, the Scheme may from time to time invest in higher yielding, lower rated securities but not below investment grade and also in un-rated securities subject to provisions and restrictions laid down by SEBI, which would enhance the degree of risk. Changes in Government Policy in general and changes in tax benefits applicable to mutual funds may impact the returns to investors in the Scheme.
- The NAV of the scheme may be affected by the changes in the general market conditions, factors and forces affecting capital market in particular, level of interest rates, various market related factors, settlement periods and transfer procedures. If a Unit Holder invests in the scheme and acquires a substantial portion of the scheme units, the repurchase of units by the Unit Holder may have an adverse impact on the units of the schemes because the timing of such repurchase may impact the ability of other Unit holders to repurchase their units.
- The tax benefits described in this SID and SAI are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advice received by the AMC regarding the law and practice currently in force in India as on the date of this Scheme Information Document and the Unit holders Investors should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Investor is advised to consult his/her own professional tax advisor
- The NAV of the scheme may be affected by the changes in the general market conditions, factors and forces affecting capital market in particular, level of interest rates, various market related factors, settlement periods and transfer procedures.
- If a Unit holder invests in the schemes and acquire a substantial portion of the scheme units. The repurchase of units by the Unit Holder may have an adverse impact on the units of the schemes, because the timing of such repurchase may impact the ability of other Unit holders to repurchase their units.
- The AMC and/ or its Registrars & Transfer Agent (RTA) reserve the right to disclose/share Unit holder's details of folio(s) and transaction details there under with the following third parties:
 - a) RTA, Banks and/or authorized external third parties who are involved in transaction processing, dispatching etc., of the Unitholder's investment in the Scheme;
 - b) Distributors or sub-brokers through whom the applications are received for the Scheme;
 - c) Any other organizations for compliance with any legal or regulatory requirements or to verify the identity of the Unitholders for complying with anti-money laundering requirements.
- The AMC may consider the overall level of risk of the portfolio; invest in lower rated / un-rated securities, offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute risk of the portfolio.
- Any disruption in the normal functioning of the Debt market or extreme illiquidity in any one of the Scheme's Securities, may affect the ability of The Fund Manager to buy or sell freely in the market. In the event of a large number of repurchase requests, the time taken by the Scheme for repurchase may become significant.

- It may be noted that no prior intimation/indication would be given to investors when the composition asset allocation pattern of the Scheme undergo changes within the permitted band as mentioned in this document. In the event of a large number of repurchase requests, the time taken by the Scheme for repurchase may become significant.
- Investors should study this Scheme Information Document carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, investment or any other matters. Investors may, if they wish, consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/redeem Units. Canara Robeco Mutual Fund will not be responsible for any loss of tax benefits in the event of winding up of the Scheme or for any amendment in tax laws that may affect the tax benefits available under the Scheme. The tax benefits are based on the present laws and rules in force.
- The Mutual Fund may disclose details of the Investor's account and transactions thereunder to those intermediaries whose stamp appears on the application form. In addition, the Mutual Fund may disclose such details to the bankers / its agents, as may be necessary for the purpose of effecting payments to the Investor. Further, the Mutual Fund may disclose details of the Investor's account and transactions thereunder to any Regulatory/ Statutory entities as per the provisions of law.
- The AMC sub-advises Robeco, Hongkong for Indian Securities pursuant to No Objection issued by SEBI vide its letter dated 29th June, 2011. The AMC is also the Portfolio Manager pursuant to Certificate of Registration INP000003740 dated 5th July, 2016 granted by SEBI.
- Controls and safeguards prescribed under the Regulation for managing the other business activities of AMC as mentioned above are being adhered to and there is no conflict of interest in managing the Schemes of the Fund and the said business activities of AMC. The AMC will ensure that any potential conflicts between other business activities and the Mutual Fund will be adequately addressed by (a) compliance with the requirements under Regulation 24(b) of the SEBI (Mutual Funds) Regulations, 1996 which require that the AMC cannot undertake any activity which is in conflict with the activities of the mutual fund; (b) ensuring that the fund manager(s) of each scheme of the Mutual Fund, will not play any role in the day-to-day operations of the other business activities, and the key investment team of the other business activities is not involved with the activities of the Mutual Fund; and (c) ensuring that there is no inter se transfer of assets between the Mutual Fund and any account of the investor under Portfolio Management Services.
- Redemption due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustees, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise due to such Redemptions.
- Pursuant to the provisions of Prevention of Money Laundering Act, 2002, if after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, on failure to provide required documentation, information, etc. by the unit holder the AMC shall have absolute discretion to report such suspicious transactions to FIU - IND and / or to freeze the folios of the investor(s), reject any application(s) / redemptions / allotment of units.

Know Your Customer ("KYC"): The need to 'Know Your Customer' is vital for the prevention of money laundering. The Trustees / AMC may seek information or obtain and retain documentation used to establish identity. It may re-verify identity and obtain any missing or additional information for this purpose.

The Trustees / AMC shall have absolute discretion to reject any application, or prevent further transactions by a Unit holder, if after due diligence, the Investor / Unit holder / a person making the payment on behalf of the Investor does not fulfill the requirements of the 'Know Your Customer' or the Trustees / AMC believes that the transaction is suspicious in nature as regards money laundering. In this behalf the Trustees / AMC reserves the right to reject any application and / or effect a mandatory Redemption of Units allotted to the Unit holder.

If after due diligence, the Trustees / AMC believes that any transaction is suspicious in nature as regards money laundering, the AMC shall report any such suspicious transactions to competent authorities under PMLA and rules / guidelines issued thereunder by SEBI and / or the RBI, furnish any such information in connection therewith to such authorities and take any other actions as may be required for the purposes of fulfilling its obligations under PMLA and rules / guidelines issued thereunder by SEBI and / or RBI without obtaining the prior approval of the Investor / Unit holder / any other person.

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

Focused Fund - An open-ended equity scheme investing in maximum of 30 stocks in large cap, mid cap and small cap companies.

B. WHAT IS THE INVESTMENT OBJECTIVES OF THE SCHEME?

The investment objective of the scheme is to generate long term capital appreciation/income by investing in equity and equity related instruments across market capitalization of up to 30 companies. However there can be no assurance that the investment objective of the Scheme will be realized.

C. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

Under normal circumstances, the asset allocation of the Scheme will be as follows:

Asset Allocation	Indicative allocations (% of total assets)		Risk Profile
	Minimum	Maximum	
Equity and Equity-related Instruments*	65%	100%	Medium to High
Debt and Money Market Instruments	0%	35%	Low to Medium
Units issued by REITs and InvITs	0%	10%	Medium to High
Units of MF schemes	0%	5%	Medium to High
Equity Exchange Traded Funds	0%	10%	Medium to High

*Subject to overall limit of 30 stocks.

Gross investments in securities under the Scheme which includes equities, equity related instruments/securities, debt securities, money market instruments and derivatives will not exceed 100% of the net assets of the Scheme or such other limits as may be permitted by SEBI from time to time. The Scheme may take derivatives position based on the opportunities available subject to the guidelines issued by SEBI from time to time and in line with the overall investment objective of the Scheme. These may be taken to hedge the portfolio, rebalance the same or to undertake any other strategy as permitted under the SEBI Regulations. Exposure by the scheme in derivative shall be in accordance with Circular No. Cir/IMD/DF/11/2010 dated August 18, 2010 as may be amended from time to time.

Investment in Derivatives can be upto 40% of the Net Assets of the Scheme.

The scheme does not intend to invest in Foreign Securities. The scheme also does not intend to invest in securities having credit enhancements or structured obligations.

The stock lending done by the Scheme (if any) shall not exceed 20% of the net assets of the Scheme as on the date of such lending. Process for lending securities shall be in accordance with the guidelines on securities lending and borrowing issued by SEBI from time to time.

The scheme does not intend to invest in Securitised Debt. The Scheme may invest in Units issued by REITs and InvITs as per SEBI guidelines.

Pending deployment of the corpus of the Scheme in terms of investment objective, the Mutual Fund may invest the corpus of the Scheme in short term deposits in accordance with the guidelines issued by SEBI from time to time.

As per the provisions of SEBI circular dated 28th December, 2018 and 7th November 2019, the AMC, may create segregated portfolio in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA) below a specified rating level (Subject to guideline specified by SEBI which may change from time to time).

The creation of segregated portfolio shall be optional and at the discretion of Canara Robeco AMC Ltd.

Asset Allocation:

The above asset allocation pattern is not absolute and can vary depending upon the AMC's perception of the markets as well as the general view on interest rates. The asset allocation pattern indicated above may thus be altered substantially on defensive considerations. Subject to the SEBI Regulations, the asset allocation pattern of the schemes indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions can vary depending upon the perception of the Investment Manager; the intention being at all times to seek to protect the interests of the Unit holders. The portfolio would be reviewed periodically to address any deviations from the aforementioned allocations inter alia due to market changes. The AMC may from time to time, for a short term, alter the asset composition on defensive consideration and may also invest the funds available in repos, bank deposits in accordance with the provisions of SEBI (Mutual Funds) Regulations, 1996 and the circulars issued by SEBI from time to time.

Exposure to Derivatives:

The Scheme shall follow exposure limits on Derivatives as per the exposure limits permitted under the Regulations as per SEBI Circular No. DNPd/Cir – 29/2005 dated 14th September 2005 and shall be within the limits prescribed by the Board of Trustees. SEBI vide its circular no. DNPd/Cir-29/2005 dated September 14, 2005 permitted mutual funds to participate in derivatives trading subject to the observance of guidelines issued by SEBI. Mutual Funds are permitted to participate in the derivatives market at par with Foreign Institutional Investors (FII). Accordingly, the mutual funds shall be treated at par with a registered FII in respect of position limit in index futures, index options, stock options and stock futures contracts. The Mutual Fund will be considered as trading members like registered FIIs and the schemes of Mutual Funds will be treated as clients like sub-accounts of FIIs. As a part of the fund management process, the AMC may use appropriate derivative instruments in accordance with the investment objectives of the Scheme and as per procedure prescribed under the stated circular

Portfolio Rebalancing:

The AMC reserves the right to change the above asset allocation pattern in the interest of the investors depending on the market conditions for a short term period of defensive consideration. In case any deviation from the asset allocation, the fund manager will carry out rebalancing within 30 days. Where the portfolio is not rebalanced within 30 Days, justification for the same shall be placed before the Investment Committee and reasons for the same shall be recorded in writing. The Investment Committee shall then decide on the course of action. However, at all times the portfolio will adhere to the overall investment objectives of the Scheme.

Inter Scheme Transfers ("IST") of Securities

As per the provisions of SEBI circular dated 8th October, 2020, ISTs may be allowed in the following scenarios:

a) For meeting liquidity requirement in a scheme in case of unanticipated redemption pressure:

AMC shall have an appropriate Liquidity Risk Management (LRM) Model at scheme level, approved by trustees, to ensure that reasonable liquidity requirements are adequately provided for. Recourse to ISTs for managing liquidity will only be taken after the following avenues for raising liquidity have been attempted and exhausted:

- i) Use of scheme cash & cash equivalent
- II) Use of market borrowing
- III) Selling of scheme securities in the market
- IV) After attempting all the above, if there is still a scheme level liquidity deficit, then out of the remaining securities, outward ISTs of the optimal mix of low duration paper with highest quality shall be effected.

The use of market borrowing before ISTs will be optional and Fund Manager may at his discretion take decision on borrowing in the best interest of unitholders. The option of market borrowing or selling of security as mentioned at point II & III above may be used in any combination and not necessarily in the above order. In case option of market borrowing and/or selling of security is not used, the reason for the same shall be recorded with evidence.

b) For Duration/ Issuer/ Sector/ Group rebalancing

- i) ISTs shall be allowed only to rebalance the breach of regulatory limit.
- II) ISTs can be done where any one of duration, issuer, sector and group balancing is required in both the transferor and transferee schemes. Different reasons cannot be cited for transferor and transferee schemes except in case of transferee schemes is being a Credit Risk scheme.

III) In order to guard against possible mis-use of ISTs in Credit Risk scheme, trustees shall ensure to have a mechanism in place to negatively impact the performance incentives of Fund Managers, Chief Investment Officers (CIOs), etc. involved in process of ISTs in Credit Risk scheme, in case the security becomes default grade after the ISTs within a period of one year. Such negative impact on performance shall mirror the existing mechanism for performance incentives of the AMC.

No ISTs of a security shall be allowed, if there is negative news or rumors in the mainstream media or an alert is generated about the security, based on internal credit risk assessment in terms of clause F of SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2019/104 dated October 01, 2019 during the previous four months.

If security gets downgraded following ISTs, within a period of four months, Fund Manager of buying scheme has to provide detailed justification /rationale to the trustees for buying such security.

AMC shall ensure that Compliance Officer, Chief Investment Officer and Fund Managers of transferor and transferee schemes have satisfied themselves that ISTs undertaken are in compliance with the regulatory requirements. All documentary evidence and required Template in this regard shall be maintained by the AMC for all ISTs.

D. Where will the scheme invest?

Subject to the Regulations, the corpus of the Scheme may be invested in all or any one of (but not exclusively) the following securities.

- **Equity and equity related instruments** - including preference shares, convertible bonds and debentures and warrants carrying the right to obtain equity shares.
- **Debt Instruments** - include Govt. of India securities (zero coupon or coupon bearing Bonds), State Govt. Bonds, Bonds issued by local Govt., Govt. Agencies and other statutory bodies (with or without Govt. Guarantee), Bonds of Public Sector Undertakings, Debentures issued by public, private sector undertakings, Financial Institutions with or without ratings, Usance Bills (Bills of Exchange drawn on a term governed by the usage in trade or between the companies involved).
- **Money Market Instruments** - include Commercial Papers, Commercial Bills, Treasury Bills, Government Securities having an un-expired maturity up to one year, Call or Notice Money, Certificate of Deposit, Usance Bills, TREPS, Repos & Reverse Repos in Government Securities/Treasury Bills, Bills re-discounting, MIBOR Instruments, alternative investment for the call money market as may be provided by the RBI to meet the liquidity requirements and any other Money market instruments specified by SEBI/RBI from time to time.

Mutual fund scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instruments and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging

- **Pass through Certificate (PTC)**- (Pay through or other Participation Certificates) represents beneficial interest in an underlying pool of cash flows. These cash flows represent dues against single or multiple loans originated by the sellers of these loans. These loans are given by banks or financial institutions to corporates. PTCs may be backed, but not exclusively, by receivables of personal loans, car loans, two-wheeler loans and other assets subject to applicable regulations.
- **Derivative** - instruments like index futures, stock futures, index options, stock option, warrants, convertible securities, Interest Rate Futures, Interest Rate Swaps, Forward Rate Agreements, or any other derivative instruments that are permissible or may be permissible in future under applicable regulations.
- **REITs / InvITs** - The scheme may invest in Units issued by REITs and InvITs as per SEBI guidelines.
- Units of MF schemes and Equity Exchange Traded Funds (ETFs).

The securities mentioned above could be listed, unlisted, privately placed, secured, unsecured, rated or unrated and of any maturity. The securities may be acquired through initial public offerings (IPOs), secondary market operations, private placement or rights offers. All investments in securities whether privately placed or otherwise will be in line with SEBI guidelines as applicable and the investment objectives and policies of the Scheme. Investment in unrated securities will be in accordance with SEBI guidelines as applicable.

Investment in other Schemes:

The investment by the Scheme in other Mutual Fund Schemes will be in accordance with Regulation 44(1) read with Clause 4 of the VII Schedule to the SEBI (Mutual Funds) Regulations, 1996 according to which:

- The Scheme/s may invest in another scheme under the same asset management company or in any other mutual fund without charging any fees, provided the aggregate inter scheme investments made by all the Schemes under the same management or in schemes under the management of any other AMC shall not exceed 5% of NAV of the mutual fund.
- The Scheme/s shall not make any investment in any fund of fund scheme.

Short Term Deposits

Pending deployment of funds of a scheme in terms of investment objectives of the scheme, the Mutual Fund may invest them in short term deposits of schedule commercial banks, subject to such Guidelines as may be specified by the Board. The investments in these deposits shall be in accordance with SEBI Circular Nos. SEBI/IMD/CIR No. 9/20306/03, SEBI/IMD/CIR No. 1/91171/07, SEBI/IMD/CIR No. 8/107311/07, SEBI/IMD/CIR No. 7/129592/08 dated 12 November 2003, 16 April 2007, 26 October 2007 and 23 June 2008 respective and any other applicable guidelines as amended or updated from time to time. The Scheme shall abide by the following guidelines for parking of funds in short term deposits.

- a) "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
- b) Such short-term deposits shall be held in the name of the Scheme.
- c) The Scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustees.
- d) Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- e) The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- f) The Scheme shall not park funds in short-term deposit of a bank, which has invested in the Scheme. The aforesaid limits shall not be applicable to term deposits placed as margins for trading in cash and derivatives market.
- g) AMC(s) shall not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks.

Debt and Money Markets in India

The Indian debt market is today one of the largest in Asia and includes securities issued by the Government (Central & State Governments), public sector undertakings, other government bodies, financial institutions, banks and corporates. Government and public sector enterprises are the predominant borrowers in the markets. The major players in the Indian debt markets today are banks, financial institutions, mutual funds, insurance companies, primary dealers, trusts, pension funds and corporates. The Indian debt market is the largest segment of the Indian financial markets. The debt market comprises broadly two segments, viz. Government Securities market or G-Sec market and corporate debt market. The latter is further classified as market for PSU bonds and private sector bonds.

The Government Securities (G-Secs) market is the oldest and the largest component (70% share in market cap) of the Indian debt market in terms of market capitalization, outstanding securities and trading volumes. The G-Secs market plays a vital role in the Indian economy as it provides the benchmark for determining the level of interest rates in the country through the yields on the Government Securities which are referred to as the risk-free rate of return in any economy. Over the years, there have been new products introduced by the RBI like zero coupon bonds, floating rate bonds, inflation indexed bonds, etc.

The corporate bond market, in the sense of private corporate sector raising debt through public issuance in capital market, is only an insignificant part of the Indian Debt Market. A large part of the issuance in the non-Government debt market is currently on private placement basis.

The money markets in India essentially consist of the call money market (i.e. market for overnight and term money between banks and institutions), repo transactions (temporary sale with an agreement to buy back the securities at a future date at a specified price), commercial papers (CPs, short term unsecured promissory notes, generally issued by corporates), certificate of deposits (CDs, issued by banks) and Treasury Bills (issued by RBI). In a predominantly institutional market, the key money market players are banks, financial institutions, insurance companies, mutual funds, primary dealers and corporates. In money market, activity levels of the Government and nongovernment debt vary from time to time. Instruments that comprise a major portion of money market activity include but not limited to:

- Overnight Call (i.e. market for overnight and term money between banks and institutions)
- Tri-Party Repo
- Repo/Reverse Repo Agreement (temporary sale with an agreement to buy back the securities at a future date at a specified price)
- Treasury Bills
- Government securities with a residual maturity of < 1 year.
- Commercial Paper
- Certificate of Deposit

Apart from these, there are some other options available for short tenure investments that include MIBOR linked debentures with periodic exit options and other such instruments. Though not strictly classified as Money Market Instruments, PSU / Financial Institution / Corporate paper with a residual maturity of < 1 year, are actively traded and offer a viable investment option.

The market has evolved in past 2-3 years in terms of risk premia attached to different class of issuers. Bank CDs have clearly emerged as popular asset class with increased acceptability in secondary market. PSU banks trade the tightest spreads over similar maturity sovereign papers, on the back of comfort of majority government holding. Highly rated manufacturing companies also command premium on account of limited supply. However, there has been increased activity in papers issued by private/foreign banks/NBFCs/companies in high-growth sector due to higher yields offered by them. Even though companies across these sectors might have been rated on a same scale, the difference in the yield on the papers for similar maturities reflects the perception of their respective credit profiles.

The following table gives approximate yields prevailing as on 31st March, 2022 some of the instruments:

Instrument	Current Yield Range%
TREPS	2.00%-4.10%
Market Repo	0.01%-4.10%
3m Tbill	3.70%
1y Tbill	4.54%
10y G Sec	6.84%
3m PSU Bank CD	3.85%
3m NBFC CP	4.15%
3m Non NBFC CP	3.95%
1y PSU Bank CD	4.65%
1y NBFC CP	5.10%
1y Non NBFC CP	4.75%-4.80%
5y AAA Institutional Bond (PSU Bond)	6.28%-6.33%
10y AAA Institutional Bond (PSU Bond)	7.02%-7.07%

These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing consequent to changes in macro-economic conditions and RBI policy. The price and yield on various debt instruments fluctuate from time to time depending upon the macro economic situation, inflation rate, overall liquidity position, foreign exchange scenario etc. Also, the price and yield vary according to maturity profile, credit risk etc.

E. WHAT ARE THE INVESTMENT STRATEGIES?**Investment Strategy:**

The Scheme will aim to invest predominantly equity and equity related instruments with an aim to generate long-term capital appreciation from a concentrated portfolio of predominantly equity and equity related securities with higher focused approach of investing in upto a maximum of 30 stocks across market capitalization.

The Scheme shall follow an active investment style and it will seek to invest in companies with strong competitive position, ability to increase the market share, good financial track-record along with quality management that may help them to achieve good growth over medium to long term. The scheme would take concentrated exposure in not more than 30 high conviction stocks in sectors depending on the growth opportunities.

While making investment decisions, besides other factors, the impact of the prevailing economic environment over the medium to long term prospects of the companies will also be taken into consideration. The AMC will endeavour to meet the investment objective of the Scheme while maintaining a balance between safety, liquidity and return on investments.

Investment Pattern and changes:

Please refer to sub - section C 'How will the Scheme Allocate its Assets?' under the section II 'Information about the Scheme'.

The term Investment pattern is defined as the tentative portfolio break-up of Equity, Debt, Money Market Instruments, other permitted securities and such other securities as may be permitted by SEBI from time to time with minimum and maximum asset allocation, while retaining the option to alter the asset allocation for a short term period on defensive considerations.

Under normal circumstances, the investment pattern outlined in section C shall always prevail. However, it is to be noted that the investment pattern mentioned above is only indicative and may be changed by the Investment Manager for defensive considerations subject to portfolio rebalancing clause and in accordance with change in Regulations from time to time, under the following circumstances:

1. During extreme volatility / ill-liquidity in the capital market/securities market.
2. In case of natural calamity, strikes, riots, bandhs etc., affecting the valuation of security.
3. Declaration of war or occurrence of insurgency, or any other serious or sustained financial, political or industrial emergency or disturbance, resulting in liquidity crunch.
4. During the time, the Fund receives bulk repurchase and/or bulk investment.

A review will be made as and when such variation takes place, and, if the variation is beyond 10%, the reasons thereof will be recorded. The variation from the stated asset allocation will be constantly monitored and such variation will be brought down to the specified asset allocation levels as soon as normalcy is restored. A report of such variations will be made to the Board of the AMC and the Trustees on a regular basis.

Risk Mitigation:

Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in portfolio construction process. Stock specific risk will be minimized by investing only in those companies that have been thoroughly analyzed by the AMC.

Through adequate diversification of the portfolio, the AMC tries to reduce the risk. Diversification will also be achieved by spreading the investments over a diverse range of industries / sectors. The Scheme, generally does not intend investing in illiquid and unlisted equity related securities. However, if the case merits, the Scheme may invest in such securities adhering to prudential norms on a case to case basis. The investments may be made in primary as well as secondary markets and the portfolio will be adequately diversified.

The Scheme being open ended, some portion of the portfolio may be invested in Money Market Instruments so as to meet the normal repurchase requirements. The remaining investment will be made in securities which are either expected to be reasonably liquid or of varying maturity. However, the NAV of the Scheme may be affected, if the securities invested in are rendered illiquid after investment.

In addition, the Investment Manager will study the macro economic conditions, including the political, economic environment and factors affecting liquidity and interest rates. The Investment Manager would use this analysis to assess the likely direction of interest rates and position the portfolio appropriately to take advantage of the same.

The Scheme may use derivatives instruments like Stock/ Index Futures or Options, Interest Rate Futures, Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced from time to time for the purpose of hedging or portfolio balancing or any other purpose as allowed under the regulations, within the permissible limit of the portfolio, which may be increased as permitted under the Regulations and guidelines from time to time.

Liquidity, ex-ante tracking error, VaR will be monitored on an ongoing basis to ensure that they are all within the defined regulatory/internal limits. Monthly scenario analysis will be done on the portfolio and results shall be shared with the investment team for them to take suitable action, if deemed necessary. In addition the scheme's performance vis-a-vis the benchmark will also be reviewed by the investment committee.

As a prudent measure, the AMC has broad internal investment norms and investments made through the scheme would be in accordance with the investment objectives of the schemes and provisions of SEBI Regulations.

Debt Securities:

Concentration of risk is mitigated by defining issuer limits. Rigorous in-depth credit evaluation of the issuers will be conducted by the investment team before making investments. As part of credit evaluation, a study on the operating environment, past track record as well as future prospects of the issuer, short as well as long term financial health of the issuer will be carried out. The AMC will be guided by the ratings of accredited agencies such as CRISIL, CARE, ICRA etc. as well as the internal norms for credit exposure. Investments made by the schemes would be in accordance with the investment objectives of the schemes and provisions of SEBI Regulations. Since investing required disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process.

The risk control process involves reducing risks through portfolio diversification, taking care however not to dilute returns in the process. The AMC believes that this diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. With the aim of controlling risks, the investment team of the AMC will carry out rigorous in-depth analysis of the securities proposed to be invested in. While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

Procedure followed for investment decisions:

The Fund Manager of the Scheme is responsible for making buy / sell decisions for the Scheme's portfolio and seeks to develop a well-diversified portfolio taking into account the asset allocation patterns of other schemes along with risks that are associated with such investments. The investment decisions are made on an ongoing basis keeping in view the market conditions and other regulatory aspects.

The AMC has constituted an Investment Committee, currently comprising of the CEO, COO, Head of Risk Management, Head of Equities and Head of Fixed Income that meets at periodic intervals. The Investment Committee's role is to formulate broad investment strategies for the Scheme, review the performance of the Scheme and the general market outlook.

The Fund Manager is responsible for facilitating investment debate and a robust investment culture. The investment team would hold ongoing meetings as well as additional ad-hoc meetings as needed, to explore the investment thesis.

It is the responsibility of the AMC to seek to ensure that the investments are made as per the Regulatory guidelines, the investment objective of the Scheme and in the interest of the Unit holders of the Scheme.

The AMC will keep a record of all investment decisions in accordance with the guidelines issued by SEBI.

The AMC and Trustees will review the performance of the scheme in their Board meetings. The performance would be compared with the performance of the benchmark index and with peer group in the industry.

Portfolio Turnover Policy:

Purchase and Sale of securities attract transaction costs of the nature of brokerage, stamp duty, custodian transaction charges etc. The portfolio turnover is essential to regularly explore trading opportunities to optimise returns for the Scheme and enable portfolio restructuring when required.

The Scheme will manage its portfolio taking into account the associated risks (such as interest / liquidity / redemption etc.) perceived / expected, so as to mitigate the risks by using adequate risk management techniques. The portfolio turnover policy will be aimed at enhancing the returns/growth.

The Scheme is open ended, with subscriptions and redemptions expected on a daily basis, resulting in net inflow/outflow of funds, and on account of the various factors that affect portfolio turnover; it is difficult to give an estimate, with any reasonable amount of accuracy. Therefore, the Scheme has no specific target relating to portfolio turnover.

Pursuant to Schedule IX read with Regulation 50 of the SEBI (Mutual Funds) Regulations, 1996, the cost of investments acquired or purchased shall include all such costs incurred for effecting the transaction while the sale proceeds of investment sold or redeemed shall be net of all such costs incurred for effecting the sale transactions and shall form part of the purchase or the sale value of investments

Underwriting:

The scheme will not accept underwriting and sub underwriting obligations.

Stock/Securities Lending by the Fund:

The Fund may in future carry out stock/securities lending activity under any of its Schemes, in order to augment its income. Stock/securities lending may involve the risk of default such as loss, bankruptcy etc. on the part of the borrower. However, this is unlikely to happen if the stock/securities lending is carried out for stocks/securities which are in dematerialised form and through an authorised stock/securities lending Scheme which is subject to appropriate regulation. Any stock/securities lending done by the Scheme shall be in accordance with any regulations or guidelines regarding the same. The policy to be followed for stock/securities lending shall be approved by the Board of Directors of the Investment Manager as well as by the Board of Trustees.

Hedging and Derivatives:

The scheme intends to use derivatives as may be permitted under the Regulations from time to time. The same shall be within the permissible limit prescribed by SEBI (Mutual Fund) Regulations from time to time.

As a part of the fund management process, the AMC may use appropriate derivative instruments in accordance with the investment objectives of the Scheme and in accordance with SEBI Regulations as may be applicable from time to time.

SEBI has also vide circular DNPd/Cir-29/2005 dated 14th September 2005 permitted Mutual Funds to participate in the derivatives market at par with Foreign Institutional Investors (FII). Accordingly, Mutual Funds shall be treated at par with a registered FII in respect of position limits in index futures, index options, stock options and stock futures contracts. The Fund shall comply with the guidelines issued by SEBI and amendments thereof issued from time to time in derivative trading.

Equity / Equity Related Derivative Instruments:

Index futures are meant to be an efficient way of buying / selling an index compared to buying/selling a portfolio of physical shares representing an index for ease of execution and settlement. Index futures can be an efficient way of achieving the Scheme's investment objective. Index futures may avoid the need for tracking in individual components of the index, which may not be possible at times, keeping in mind the circuit filter system and the liquidity in some of the scrips. Index futures can also be helpful in reducing the transaction costs and the processing costs on account of ease of execution of one trade compared to several trades of shares of an index and will be easy to settle compared to physical portfolio of shares representing an index.

Stock futures could also be used as an alternative to investing in particular stocks comprising an index where either the liquidity is low or the impact cost is high.

Basic Structure of an Index Future:

Index Futures are instruments designed to give exposure to the equity market indices. The Stock Exchange, Mumbai and the National Stock Exchange of India Limited trade in index futures. The pricing of an index future is the function of the underlying index and short-term interest rates.

Illustration :

Spot Index: 1070

1 month Nifty Future Price on day 1: 1075

Fund buys 100 lots

Each lot has a nominal value equivalent to 200 units of the underlying index.

Let us say that on the date of settlement, the future price = Closing spot price = 1085

Profits of the Fund = $(1085 - 1075) * 100 \text{ lots} * 200 = \text{Rs.}200,000$

Similarly, the fund can suffer a loss if the future price is lower than the contracted price. Let us say that in the above example, on the date of settlement the future price = Closing Spot Price = 1060.

Loss for the Fund = $(1060 - 1075) * 100 \text{ lots} * 200 = (\text{Rs.}300,000)$

Please note that the above example is given for illustration purposes only.

The net impact for the Fund will be in terms of the difference between the closing price of the index and cost price (ignoring margins for the sake of simplicity) plus interest costs on funds that would otherwise be invested in stocks comprising the index. The risks associated with index futures are similar to those associated with equity investments. Additional risks could be on account of illiquidity and/or mispricing of the future at any time during the life of the contract.

Strategy Number No. 1

Using Index Future to increase percentage investment in equities.

The strategy will be used for the purpose of generating returns on idle cash, pending its investment in equities. The Scheme is open ended in nature and subject to daily inflows. There may be a time lag between the inflow of funds and their deployment in equities. If so desired, the AMC would be able to take immediate exposure to equities via index futures. The position in index futures may be reversed in a phased manner, as the funds are deployed in the equity markets.

Example :

The scheme has a corpus of Rs. 50 crores and there is an inflow of Rs. 5 crore in a day. The AMC may buy index futures contracts of a value of Rs. 5 crore. Later as the money is deployed in the underlying equities, the value of the index futures contracts can be suitably reduced.

Portfolio	Event	Equity Portfolio Gain(Loss) Rs. in Crs.	Derivative Gain (Loss) Rs. in Crs.	Total Portfolio Gain / (Loss) Rs. in Crs
Rs.50 Crore Equity exposure	10% rise in Equity Price	5	Nil	5
Rs. 50 Crore exposure + Rs. 5 Crore long position index futures	10% rise in Equity Price	5	0.5	5.5
Rs.50 crore Equity exposure	10% fall in Equity price	(5)	Nil	(5)
Rs.50 crore Equity exposure + Rs 5 crore long position index futures	10% fall in Equity price	(5)	(0.5)	(5.5)

RISKS

- The strategy of taking a long position in index futures increases the exposure to the market. The long position is positively correlated with the market. However, there is no assurance that the stocks in the portfolio and the index behave in the same manner and thus this strategy may not provide gains perfectly aligned to the movement in the index.
- The long position will have as much loss as a gain in the underlying index, e.g. if the index appreciates by 10%, the future value rises by 10%. However, this is true only for futures contracts held till maturity. In the event that a futures contract is closed out before its expiry, the quoted price of the futures contract may be different from the gain/loss due to the movement of the underlying index. This is called the basis risk.
- While futures markets are typically more liquid than the underlying cash market, there can be no assurance that ready liquidity would exist at all points in time, for the Scheme to purchase or close out a specific futures contract.
- Similarly, the fund can use stock futures to reduce the cost of holding in the following manner:
- When stock futures are trading at a discount then the fund can buy stock in futures market instead of buying in the cash market. On expiry of the contract, both prices (spot and future) have to align. On expiry or as and when stocks start trading at a premium in the futures market the transaction can be reversed by selling the stock in futures and buying in the cash market.
- Fund can take advantage of arbitrage opportunities in the futures markets to reduce cost of holding. If stock futures are trading at a discount then the fund can sell its existing holding in cash market and buy in the futures market. The cash realised will earn interest while the overall cost of the holding stock will also come down. On expiry of contract both prices (spot and futures) have to align. On expiry or as and when the stock starts trading at a premium in the futures market, the transaction can be reversed by selling the stock in the futures and buying in the cash markets.

Strategy Number 2

Using Index Futures to decrease percentage investment in equities:

Similarly, in the case of a pending outflow of funds where a negative view is taken on the market, the Fund, in order to reduce exposure in equities may 'sell the index forward' by taking a short position in Index Futures. This position can be unwound over a period of time simultaneously selling the equity shares from the investment portfolio of the Scheme. The strategy of taking a short position in the index future is a hedging strategy and reduces the market risk and volatility of the portfolio. However, if the value of the index future rises, then, the fund would be adversely affected due to its short position in index futures.

Example: Assume that a scheme has an equity exposure of Rs. 100 crore. If the Fund Manager wishes to reduce the equity exposure to Rs. 50 crore for a short time, he should sell index futures contracts of Rs. 50 crore.

Portfolio	Event	Equity Portfolio Gain(Loss) Rs. in Crs.	Derivative Gain (Loss) Rs. in Crs.	Total Portfolio Gain / (Loss) Rs. in Crs
Without Hedge Rs.100 crore equity Exposure	10% fall in Equity Price	(10)	Nil	(10)
With Hedge Rs.100 crore equity Exposure	10% fall in Equity Price	(10)	5	(5)
Without Hedge Rs.100 crore equity Exposure	10% rise in Equity price	10	Nil	10
With Hedge Rs.100 crore equity Exposure	10% rise in Equity price	10	(5)	5

50% Hedge – contract value of Rs. 50 crore

The above example demonstrates that the Fund would benefit from the hedged position if the index future moves in the direction as expected by the Fund Manager. Similarly, the Fund would be adversely affected from the hedged position if the index does not move in the direction expected by the Fund Manager.

RISKS

- The strategy of taking a short position in index futures is a hedging strategy and reduces the market risk. The short position is negatively correlated with the market. However, there is no assurance that the stocks in the portfolio and index behave in the same manner and thus this strategy may not be a perfect hedge.
- The short position will have as much loss as a gain in the underlying index. e.g. if the index appreciates by 10%, the future value falls by 10%. However, this is true only for futures contract held till maturity. In the event that a futures contract is closed out before its expiry, the quoted price of the futures contract may be different from the gain/loss due to the movement of the underlying index. This is called the basis risk.
- While futures markets are typically more liquid than the underlying cash market, there can be no assurance that ready liquidity would exist at all points in time, for the Scheme to purchase or close out a specific futures contract.

Strategy Number 3

Portfolio Protection Using Index Put

The purchase of an index put option gives the scheme the option of selling the index to the writer of the put at a predetermined level of the index, called the strike price. If the index falls below this level, the scheme benefits from the rise in the value of the put option.

Similarly, as a stock hedging strategy, the purchase of a put option on the underlying stock would give the scheme the option to sell the stock to the writer of the option at the predetermined strike price. This would lead to a capping of the loss in value of a stock.

Example: Let us assume a scheme with a corpus of Rs. 100 crore. Let us also assume an index of 100. The scheme is fully invested (Rs. 100 crore in equities). The scheme purchases a put option on the index with a strike price of 95 for an assumed cost of Rs. 1 crore. The following table illustrates the portfolio returns:

% change in Index	Index Value	Equity Portfolio Value Rs. In crore A	Option Value Rs. In crore B	Cost of the Put Option Rs. In crore C	Portfolio Value Rs. In Crore (A+B+C)	% returns from portfolio
10	110	110	0	(1)	Nil	(10)
5	105	105	0	(1)	5	(5)
(5)	95	95	0	(1)	Nil	10
(10)	90	90	5	(1)	(5)	5
(15)	85	85	10	(1)	10	(10)

A similar put option can be purchased on any individual stock and the downside can be capped.

RISKS

- The table shows that the portfolio value will not fall below Rs. 94 crore, while the scheme benefits from any increase in stock prices. The table assumes perfect correlation between the equity portfolio and the index. However this may not be the case. Therefore, the minimum portfolio value cannot be assured, but the loss is expected to be lower in a portfolio with a put option on the index, as compared to a normal portfolio.
- The put option would lead to a gain based on the difference between the strike price and the index level at expiration date, if positive. However, in case the option is reversed before the expiration date, the market price received on the sale of the option may be different from the price calculated.
- While liquidity exists in options markets, there can be no assurance that the ready liquidity would exist at all points in time, for the scheme to purchase or close out a specific options contracts.
- In the case of purchase of a stock put, the strategy is a perfect hedge on the expiration date of the put option. On other days, there may be (temporary) imperfect correlation between the share price and the put option, which can potentially take the stock value below the minimum under the hedge.

Similarly, the Fund can use stock futures to reduce the cost of holding in the following manner:

- When stock futures are trading at a discount then the fund can buy in futures market instead of buying in the cash market. On expiry of the contract, both prices (spot and futures) have to align. On expiry or as and when stocks starts trading at a premium in the futures market, the transaction can be reversed by selling the stock in futures and buying in the cash market.
- Fund can take advantage of arbitrage opportunities in the futures markets to reduce cost of holding. If stock futures are trading at a discount then the fund can sell its existing holding in cash market and buy in futures market. The cash realised will earn interest while the overall cost of holding stock will also come down. On expiry of contract both prices (spot and futures) have to align. On expiry or as and when the stock starts trading at a premium in the futures market, the transaction can be reversed by selling the stock in the futures and buying in the cash markets.

Strategy Number 4

The scheme could gain exposure to the equity markets through exchange traded call options. The investment team will evaluate the prevailing premium levels on the call options with tenure suitable to the scheme. The scheme could in such a case implement a buy and hold (passive investment) strategy for the equity index call options held or buy a series of shorter term equity index call options, thus the options strategy may be managed actively.

Example: Let us assume a scheme with a corpus of Rs. 100 crore. Let us also assume an index of 100. The scheme is invested about Rs. 99 crore in equities. The scheme purchases a call option on the index with a strike price of 100 for an assumed cost of Rs. 1 crore. Assuming the equity portfolio rises or falls by the same percentage as the index. The following table illustrates the portfolio returns:

% change in Index	Index Value	Equity Portfolio Value Rs. In crore A	Option Value Rs. In crore B	Portfolio Value Rs. In Crore (A+B)	% returns from portfolio
10	110	108.90	10	118.90	18.90
5	105	103.95	5	108.95	8.95
0	100	99	0	99	-1
(5)	95	94.05	0	94.05	-5.95
(10)	90	89.10	0	89.10	-10.90

A similar call option can be purchased on any individual stock and the upside potential can be augmented.

The rate of participation would depend on prevailing prices of call options and the Amount Available for investment in options.

	Scenario 1	Scenario 2	Scenario 3
Strike price	8100	8200	8300
Premium	1925	1850	1700
Premium as %age of strike price	23.77%	22.56%	20.48%
Amount Available for investment in options (assumed)	17%	17%	17%
Therefore, Rate of Participation is amount invested in options / premium	72%	75%	83%

RISKS

- The strategy of taking a long position in call options increases the exposure to the market. The long position is positively correlated with the market. However, there is no assurance that the stocks in the portfolio and the index behave in the same manner and thus this strategy may not provide gains perfectly aligned to the movement in the index.
- If the call options expire in the money, but not enough to compensate the premium paid, the returns of the option strategy could be less than the returns of the underlying equity market on maturity.
- Further, if the options expire out of money, the scheme will face a loss to the extent of the premium paid for options. In such case even if the equity market has a positive return during the tenure of the Scheme, the Scheme may not provide positive returns in line with the market.
- While liquidity exists in options markets, there can be no assurance that ready liquidity would exist at all points in time, for the scheme to purchase or close out a specific options contracts.
- The call option will have as much loss as a gain in the underlying index post deducting the option premium. However, this is true only for option contracts held till maturity. In the event that a option contract is closed out before its expiry, the quoted price of the option contract may be different from the gain/loss due to the movement of the underlying index.

Advantages of Equity Derivatives:

In times of volatility in the equity markets, derivatives provide much needed flexibility to hedge against this volatility. Some of the advantages of specific derivatives products are given below:

- Stock Index Futures can give exposure to the index. Appreciation in Index Investment in Stock Index Futures can give exposure to the index without directly buying the individual stocks, which make up the index. Appreciation in Index stocks can be effectively captured through investment in Stock Index Futures.
- The Scheme can sell futures to hedge against market movements without actually selling the underlying stocks it hold.
- By buying call options on the index, one can participate in the rise in the market, without actually buying individual stocks.
- By buying put options on the index, the Scheme can insulate the portfolio (assuming a perfect co-relation between portfolio and index which may not be the case) from the downside risk at a small cost.

Debt / Debt Related Derivatives

The Scheme may use derivatives in accordance with SEBI Regulations. RBI has issued guidelines on Interest Rate Swaps (IRS) and Forward Rate Agreements (FRA) on July 7, 1999. These products were introduced for developing the nation's Debt Market.

Interest Rates Swaps (IRS)

All swaps are financial contracts, which involve exchange (swap) of a set of payments receivable by one party for another set of payments receivable by another party, usually through an intermediary. An IRS can be defined as a contract between two parties (Counter Parties) to exchange, on particular dates in the future, one series of cash flows (fixed interest) for another series of cash flows (variable or floating interest) in the same currency and on the same principal for an agreed period of time. The exchange of cash flows need not occur on the same date.

Forward Rate Agreements (FRA)

A FRA is an agreement between two counter parties to pay or to receive the difference between an agreed fixed rate (the FRA rate) and the interest rate prevailing on a stipulated future date, based on a notional amount, for an agreed period. In short, in a FRA, interest rate is fixed now for a future period. The special feature of FRAs is that the only payment is the difference between the FRA rate and the Reference rate and hence are single settlement contracts. As in the case of IRS, notional amounts are not exchanged.

The Scheme will use derivatives instruments for the purpose of hedging and portfolio balancing. Hedging does not mean maximization of returns but only reduction of systematic or market risk inherent in the investment.

Basic Structure of an Interest Rate Swap

An interest rate swap is an agreement between two parties to exchange future payment streams based on a notional amount. Only the interest on the notional amount is swapped, and principal amount is never exchanged.

In a typical interest rate swap, one party agrees to pay a fixed rate over the term of the agreement and to receive a variable or floating rate of interest. The counterparty receives a stream of fixed rate payments at regular intervals as described in the agreement and pays the floating rate of interest.

Illustration :

Fixed interest rate : 10% p.a.

Variable Interest Rate : Over-Night MIBOR (variable) Notional Principal : Rs.10 crore

Period of Agreement : 1 year Interest Frequency : Semi-annual

Suppose six month period from the value date of swap to the first payment date is 182 days and the daily compounded over-night MIBOR is say 8% p.a. on that date, the interest streams are as follows :

Fixed Rate Payment :

$\text{Rs.}10,00,00,000.00 \times 182 \times 10 / 365 \times 100 = \text{Rs.}49,86,301.36$

Variable Rate :

$\text{Rs.}10,00,00,000.00 \times 182 \times 8 / 365 \times 100 = \text{Rs.}39,89,041.09$

In the above example, the fixed rate payer will pay the variable rate payer a net amount of Rs.9,97,260.27 (Rs.49,86,301.36 - 39,89,041.09).

Likewise the second and final payment will depend upon the variable NSE MIBOR for the remaining 183 days and the interest stream of fixed rate for the said period, the difference of which will be settled between the parties at the expiry of the contract.

The above example illustrates the benefits and risks of using derivatives for hedging and optimising the investment portfolio. Swaps have its own drawbacks like counterparty risk, basis risk and settlement risk. However, these risks are substantially reduced as the amount involved is interest streams and not principal.

Valuation of Derivative Products

The traded derivatives shall be valued at the closing price provided by the respective stock exchanges.

When a security is not traded on the respective stock exchange on the date of valuation, then the settlement price / any other derived price provided by the respective stock exchange.

The valuation of untraded derivatives shall be done in accordance with the valuation method for untraded investments prescribed in sub clauses (i) and (ii) of clause 2 of the Eighth Schedule to the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 as amended from time to time.

Exposure to Derivatives

Losses may arise as a result of using derivatives, but these are likely to be compensated by the gains on the underlying cash instruments held by the Scheme.

Risk associated with Derivatives trading:

The risk associated with index futures is similar to the one with equity investments. Additional risks could be on account of illiquidity and hence mispricing of the futures at the time of purchase. As and when the Scheme trades in the derivatives markets, there are risk factors and issues concerning the use of derivatives. Derivative products are specialised instruments that require investment techniques and risk analyses different from those associated with stocks. The use of a derivative requires understanding of the underlying instrument as well as that of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess risk that a derivative adds to the portfolio and the ability to forecast price movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks associated with trading in derivatives include the risks of mispricing or improper valuation of derivatives and inability of derivatives to correlate perfectly with underlying assets, indices.

The net impact for the Scheme will be in terms of the difference between the closing price of the index and cost price (ignoring margins for the sake of simplicity). Thus, profit or loss for the Scheme will be the difference between the closing price (which can be higher or lower than the purchase price) and the purchase price.

The Scheme will comply with provisions specified in Circular dated August 18, 2010 related to overall exposure limits applicable for derivative transactions as stated below:

- a) The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.
- b) Mutual Funds shall not write options or purchase instruments with embedded written options.
- c) The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
- d) Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
- e) Exposure due to hedging positions may not be included in the above mentioned limits subject to the following.
 - i) Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - ii) Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
 - iii) Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - iv) The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
- f) Mutual Funds may enter into interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
- g) Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point.

Portfolio Rebalancing:

The AMC reserves the right to change the above asset allocation pattern in the interest of the investors depending on the market conditions for a short term period of defensive consideration. In case any deviation from the asset allocation, the fund manager will carry out rebalancing within 30 days. Where the portfolio is not rebalanced within 30 Days, justification for the same shall be placed before the Investment Committee and reasons for the same shall be recorded in writing. The Investment Committee shall then decide on the course of action. However, at all times the portfolio will adhere to the overall investment objectives of the Scheme.

F. FUNDAMENTAL ATTRIBUTES

The Fundamental Attributes of the scheme are as mentioned under, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) **Type of a scheme**

An open-ended equity scheme investing in maximum of 30 stocks in large cap, mid cap and small cap companies.

(ii) **What is the investment objective of the scheme?**

The investment objective of the scheme is to generate long term capital appreciation/income by investing in equity and equity related instruments across market capitalization of up to 30 companies. However there can be no assurance that the investment objective of the Scheme will be realized.

(iii) **Terms of Issue**

Listing/Redemption/Repurchase of Units: As mentioned in Section III "Units and Offer" on page No.42 of this SID.

(iv) **Aggregate fees and expenses**

Please refer to 'Section IV'. 'Fees and Expenses' on page No. 64 of this SID.

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme and the Plan(s) / Option(s) there under or the trust or fee and expenses payable or any other change which would modify the Scheme and the Plan(s) / Option(s) there under and affect the interests of Unit holders is carried out unless:

A written communication about the proposed change is sent to each Unit holder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and

The Unit holders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

G. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Benchmark: S&P BSE 500 TRI

As approved by the Board of Directors/Trustees the Scheme has currently selected the above-mentioned benchmark on the basis of the Investment Pattern/Objective of the Scheme and the composition of the Index. The Investment Manager may revise the same to a more appropriate benchmark index, if any, as and when formulated by competent agencies. AMC may give its comments/perception on comparison of returns and benchmarks, if desired.

Further, an additional exposure of 5% of the net assets of the scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio; However the overall exposure in HFCs shall not exceed the sector exposure limit of 20% of the net assets of the scheme.

Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme.

19. The Fund shall ensure that total exposure of debt schemes of mutual funds in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the Scheme with the prior approval of the Board of Trustees (for this purpose, a group means a group as defined under regulation 2 (mm) of SEBI (Mutual Funds) Regulations, 1996 (Regulations) and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates).

Further, the investments by debt mutual fund schemes in debt and money market instruments of group companies of both the sponsor and the asset management company shall not exceed 10% of the net assets of the scheme. Such investment limit may be extended to 15% of the net assets of the scheme with the prior approval of the Board of Trustees.

As per the provisions of SEBI circular dated 10th December, 2019 the investments of mutual fund schemes in debt and money market instruments of group companies of both the sponsor and the asset management company of the mutual fund in excess of the limits specified therein, made on or before October 1, 2019 may be grandfathered till maturity date of such instruments. Apart from the investment restriction prescribed under regulation , internal risk parameters for limiting exposure to a particular scrip or sector may be prescribe from time to time to respond to the dynamic market conditions and market opportunities.

All investment restrictions stated above shall be applicable at the time of making investment.

Apart from the Investment Restrictions prescribed under the Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities.

The Trustees of the Mutual Fund may alter these limitations / objectives from time to time to the extent the SEBI Regulations change so as to permit the Scheme to make its investments in the full spectrum of permitted investments for the mutual fund in order to achieve its investment objectives. All investments of the Scheme will be made in accordance with the SEBI Regulations, including Seventh Schedule thereof.

AMC's investments in the Scheme

The AMC may invest in the scheme, such amount, as they deem appropriate. But the AMC shall not be entitled to charge any management fees on this investment in the scheme. Investments by the AMC will be in accordance with Regulation 24(3) of the SEBI (MF) Regulations, 1996 which states that:

"The asset management company shall not invest in any of its schemes unless full disclosure of its intention to invest has been made in the offer document, provided that the asset management company shall not be entitled to charge any fees on its investment in the scheme."

Underwriting by the Scheme

The scheme will not accept underwriting and sub underwriting obligations.

J. HOW HAS THE SCHEME PERFORMED?

Canara Robeco Focused Equity Fund			Benchmark	
Period	Regular Plan	Direct Plan	Regular Plan	Direct Plan
Inception Date	17-May-21			
Last 6 months	-0.33%	1.49%	-1.12%	-1.12%
Since Inception	21.92%	24.10%	21.48%	21.48%

The past performance may or may not be sustained in future. Data as on 31st March, 2022. Returns have been calculated on an absolute basis for period less than one year and on a compounded annualized basis for period more than or equal to one year. However, the performance of the scheme would be impacted due to the expense ratio charged in the scheme.

An illustration:

Assuming, an investor has invested Rs.10, 000/- in the scheme having total expense ratio of 2.25%. The scheme generated a CAGR return of 10% over one year. Therefore,

Investment Amount (Rs.) (A) = 10,000

Scheme Return (1Year) in CAGR (%) (B) = 10%

Return in One Year (Rs.) (C= (A)*(1+B)) = 1,000

Total Expense Ratio (%) (D) = 2.25%

Impact of Total Expense Ratio (Rs.) (E=A*D) = 225

Total Return to the investor (Rs.) (F=C-E) = 775

As mentioned in the illustration above, the schemes return to the investor is impacted by 2.25% due to the expense charged.

Please note that the above is an approximate illustration of the impact of expense ratio on the returns, where the Gross NAV has been simply reduced to the extent of the expenses. In reality, the actual impact would vary depending on the path of returns over the period of consideration. Expenses will be charged on daily net assets. These estimates have been made in good faith as per the information available to the Investment Manager based on past experience but the total expenses shall not exceed the limits permitted by SEBI. Types of expenses charged shall be as per the SEBI (MF) Regulations.

The purpose of the above illustration is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly

I. Systematic Investment Plan (SIP)

Systematic Investment Plan is a simple and time honoured investment strategy aiding disciplined investing over a period of time.

The features of Systematic Investment Plan are as under:

Any Date/ Monthly SIP Minimum amount per SIP	Rs. 1,000.00 and multiple of Re Rs. 1.00 thereafter .
Quarterly SIP Minimum amount per SIP installment	Rs. 2000.00 and multiple of Rs. 1.00 thereafter.
No. of SIP Installments applicable for both Monthly & Quarterly SIP a) Minimum b) Maximum	Six installments No Limit
Periodicity	Monthly/Quarterly
The facility can be exercised on	For Any Date SIP Investors can choose any date, as applicable, of their preference as SIP Debit Date between 1st to 28th of the month. In case of no date mentioned, the default date considered will be 15th In case the chosen date falls on a Non-Business Day, then the SIP will be processed on the immediate next Business Day. For month and Quarterly frequency - 01st or 5th or 15th or 20th or 25th of every month /quarter (In case, the date fixed happens to be a holiday / non-business day, the cheques shall be deposited / ECS/Auto Debit Facility will be effected on the next business day).
Applicable NAV and Cut-off time	Kindly refer to the section "Applicable NAV" on page no. 5.
Notice Period	Investors are given option to discontinue SIP by giving 15 days' notice prior to the due date of the next instalment.

A. Introduction of SIP Top-UP Facility

It is a facility wherein an investor who is enrolling for SIP has an option to increase the amount of the SIP installment by a fixed amount at pre-defined intervals. Thus, an investor can progressively start increasing the amount invested, allowing him/her to gradually increase the investment corpus in a hassle-free manner.

The silent features of the said facility are as follows:

1. SIP Top- UP facility is applicable to an Investor who is enrolling for a new SIP.
2. Minimum Top – up Amount for the said facility will be Rs. 500/- & in multiples thereof. In case the Top –Up amount is not mentioned but the upper limit is included in the application/mandate form, the default top –up amount will be Rs. 500/-.

3. Frequency for the Top up facility:
 - a) The said facility is available only for the SIP facility having frequency of Monthly and Quarterly.
 - b) The investor can choose a frequency for the Top Up depending on the SIP frequency being opted. In case of a Monthly SIP, the investor can choose either a **'Half-yearly'** or **'Annual'** based Top-up frequency; while in case of a Quarterly SIP; the available Top-up frequency will only be **'Annual'** based.
 - c) In case SIP Top-Up frequency is not mentioned, the default frequency will be considered as **'Annual'** for both monthly and Quarterly SIP.
4. The facility is available only for the investors who submit **"One Time Mandate Form"** i.e. NACH/ECS/Direct Debit Form mentioning the Maximum Amount. This will allow an investor to limit the total investment to a maximum amount as decided by the investor while filling up the Mandate Form.
5. Once the SIP Top-Up upper limit is reached, the Top – Up will be discontinued. However, the SIP will continue at the upper limit for the remaining SIP enrolment period. For further clarification, please refer the *illustrations* as mentioned below.
6. The initial investment under the SIP Top- UP will be subject to minimum SIP investment requirement, as applicable to the eligible schemes from time to time.
7. The Top-up details cannot be modified once enrolled. In order to make any changes, the investor must cancel the existing SIP and enroll for a fresh SIP with Top-up option.
8. SIP Top-up facility shall be available for SIP Investments through ECS (Debit Clearing) / Direct debit facility / NACH facility only.
9. For further details and Forms, investors are requested to refer our website (www.canararobeco.com) or visit nearest sales office of AMC/Investor's Service Center of Registrar viz. KFin Technologies Private Limited. All other terms & Conditions of the said addendum shall remain unchanged.

Allotments of units, upto 3 decimals/fractions, will be subject to realization of payment instrument and subject to the AMC having been reasonably satisfied of having received clear funds.

An applicant in a scheme whose application has been accepted shall have the option either to receive the statement of accounts or to hold the units in dematerialised form. The asset management company shall issue a statement of accounts specifying the number of units allotted to the applicant as soon as possible but not later than five working days from the date of receipt of the application.

The asset management company shall issue units in dematerialized form to a unit holder in a scheme within two working days of the receipt of request from the unit holder.

Consolidated Account Statement (CAS):

Under Regulation 36(4) of SEBI (Mutual Funds) Regulations, 1996, the AMC/ RTA is required to send consolidated account statement for each calendar month to all the investors in whose folio transaction has taken place during the month. Further, SEBI vide its circular ref. no.CIR/MRD/DP/31/2014 dated November 12, 2014, in order to enable a single consolidated view of all the investments of an investor in Mutual Fund and securities held in DEMAT form with Depositories, has required Depositories to generate and dispatch a single consolidated account statement for investors having mutual fund investments and holding DEMAT accounts. In view of the said requirements the account statements for transactions in units of the Fund by investors on or after February 1, 2015 will be dispatched to investors in following manner:

I. Investors who do not hold DEMAT Account

Consolidated account statement*, based on PAN of the holders, shall be sent by AMC/ RTA to investors not holding DEMAT account, for each calendar month on or before 15 days of the succeeding month to the investors in whose folios transactions have taken place during that month. Consolidated account statement shall be sent by AMC/RTA every half yearly (September/ March), on or before 21 days of succeeding month, detailing holding at the end of the six month, to all such investors in whose folios there have been no transactions during that period.

*Consolidated account statement sent by AMC/RTA is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, Reinvestment of Income Distribution cum Capital Withdrawal Option, Payout of Income Distribution cum Capital Withdrawal Option, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and holding at the end of the month.

II. Investors who hold DEMAT Account

Consolidated account statement**, based on PAN of the holders, shall be sent by Depositories to investors holding DEMAT account, for each calendar month within 15 days of the succeeding month to the investors in whose folios transactions have taken place during that month. Consolidated account statement shall be sent by Depositories every half yearly (September/March), on or before 21 days of succeeding month, detailing holding at the end of the six month, to all such investors in whose folios and DEMAT accounts there have been no transactions during that period. In case of DEMAT accounts with nil balance and no transactions in securities and in mutual fund folios, the depository shall send account statement in terms of regulations applicable to the depositories.

**Consolidated account statement sent by Depositories is a statement containing details relating to all financial transactions made by an investor across all mutual funds viz. purchase, redemption, switch, Reinvestment of Income Distribution cum Capital Withdrawal Option, Payout of Income Distribution cum Capital Withdrawal Option, systematic investment plan, systematic withdrawal plan, systematic transfer plan, bonus etc. (including transaction charges paid to the distributor) and transaction in dematerialised securities across DEMAT accounts of the investors and holding at the end of the month

Following provisions shall be applicable to CAS sent through AMC/ RTA and CAS sent through depositories:

- a. Investors are requested to note that for folios which are not included in the CAS, AMC shall henceforth issue monthly account statement to the unit holders, pursuant to any financial transaction done in such folios; the monthly statement will be sent on or before tenth day of succeeding month. Such statements shall be sent in physical form if no email id is provided in the folio.
- b. The statement sent within the time frame mentioned above is provisional and is subject to realisation of payment instrument and/or verification of documents, including the application form, by the RTA/AMC.
- c. In the event the folio/ DEMAT account has more than one registered holder, the first named Unit holder/Account holder shall receive the CAS (AMC/RTA or Depository). For the purpose of CAS (AMC/RTA or Depository), common investors across mutual funds/depositories shall be identified on the basis of PAN. Consolidation shall be based on the common sequence/order of investors in various folios/ DEMAT accounts across mutual funds / DEMAT accounts across depository participants.
- d. Investors whose folio(s)/ DEMAT account(s) are not updated with PAN shall not receive CAS. Investors are therefore requested to ensure that their folio(s)/ DEMAT account(s) are updated with PAN.
- e. For Unit Holders who have provided an e-mail address in KYC records, the CAS will be sent by e-mail.
- f. The Unit Holder may request for a physical account statement by writing to/calling the AMC/RTA. In case of a specific request received from the unit holders, the AMC/RTA shall provide the account statement to the unit holders within 5 business days from the receipt of such request.
- g. Account Statements shall not be construed as proof of title and are only computer printed statements indicating the details of transactions under the Schemes during the current financial year and giving the closing balance of Units for the information of the Unit Holder.
- h. Account Statement will be issued on allotment. The Units are transferrable in compliance with Regulation 37 of SEBI (MFs) Regulations, 1996

Annual Account Statement:

The Mutual Funds shall provide the Account Statement to the unit holders who have not transacted during the last six months prior to the date of generation of account statements. The Account Statement shall reflect the latest closing balance and value of the Units prior to the date of generation of the account statement, The account statements in such cases may be generated and issued along with the Portfolio Statement or Annual Report of the Scheme.

Alternately, soft copy of the account statements shall be mailed to the investors' e-mail address, instead of physical statement, if so mandated.

Half Yearly Consolidated Account Statement:

A consolidated account statement detailing holding across all schemes at the end of every six months (i.e. September/ March), on or before 21 days of succeeding month, to all such Unit holders in whose folios no transaction has taken place during that period shall be sent by mail/email.

The half yearly consolidated account statement will be sent by e-mail to the Unit holders whose e-mail address is registered with the Fund, unless a specific request is made to receive in physical.

Unit holders who receive account statements by e-mail may download the documents after receiving e-mail from the Fund. Should the Unit holder experience any difficulty in accessing the electronically delivered documents, the Unit holder shall promptly advise the Fund to enable the Fund to make the delivery through alternate means. It is deemed that the Unit holder is aware of all security risks including possible third party interception of the documents and contents of the documents becoming known to third parties.

Further, as per the provisions of SEBI circular dated 20th September, 2016 CAS issued for the half-year shall also provide the following:

- The amount of actual commission paid by AMCs/Mutual Funds (MFs) to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each scheme. (The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMCs/MFs to distributors. The commission disclosed is gross commission and does not exclude costs incurred by distributors such as service tax (wherever applicable, as per existing rates), operating expenses, etc.)
- The scheme's average Total Expense Ratio (in percentage terms) for the half-year period for each scheme's applicable plan (regular or direct or both) where the concerned investor has actually invested in.
- Such half-yearly CAS shall be issued to all investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period.

Income Distribution cum Capital Withdrawal (IDCW) Policy

The Scheme may distribute, surplus if any, by way of IDCW, as may be decided by the Trustees from time to time. As per the provisions of SEBI circular dated 5th October, 2020, amount can be distributed out of the investor's capital (Equalization Reserve), which is part of sale price that represents realized gains. Whenever distributable surplus will be distributed, a clear segregation between income distribution (appreciation on NAV) and capital distribution (Equalization Reserve) shall be suitably disclosed in the Consolidated Account Statement provided to investors as required under Regulation 36(4) of SEBI (Mutual Funds) Regulations, 1996 and SEBI Circular No. CIR/MRD/ DP/ 31/2014 dated November 12, 2014.

If there is no distributable surplus or surplus amount is too small for distribution, in the opinion of the Trustees, the IDCW declaration may not take place. The Scheme is not assuring or guaranteeing any IDCW or returns

IDCW, if declared, shall be dispatched to the unit holders the IDCW payments within 15 days from the record date.

The IDCW declared out of the Distributable Surplus of the Scheme will be paid net of tax deducted at source (TDS), to those unit holders whose names appear in the register of unit holders.

Pursuant to payment of dividend/IDCW, the NAV of the Income Distribution cum capital withdrawal option of the scheme would fall to the extent of payout and statutory levy (if applicable).

In the event of failure of dispatch of IDCW payments within the stipulated time period in terms of Regulation 53(a) of MF Regulations, it is clarified that the interest for the delayed payment of IDCW shall be calculated from the record date.

Those unit holders who have opted for Reinvestment of Income Distribution cum Capital Withdrawal option, the dividend due will be reinvested net of TDS, as applicable, by allotting Units for the IDCW amount at the prevailing ex-dividend NAV per Unit on the Record Date.

IDCW/ Dividend Distribution Procedure: In accordance with SEBI Circular no. SEBI/ IMD/ Cir No. 1/ 64057/06 dated April 4, 2006 and SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 4, 2021 the procedure for Dividend Distribution/ Income Distribution cum Capital Withdrawal would be as under:

1. Quantum of IDCW and the record date will be fixed by the Trustees. IDCW so decided shall be paid, subject to availability of distributable surplus.
2. Within one calendar day of decision by the Trustees, the AMC shall issue notice to the public communicating the decision about the IDCW including the record date, in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the head office of the Mutual Fund is situated.
3. Record date shall be the date, which will be considered for the purpose of determining the eligibility of investors whose names appear on the register of unit holders for receiving IDCW. The record date shall be 5 calendar days from the date of publication in at least one English newspaper or in a newspaper published in the language of the region where the Head Office of the mutual fund is situated, whichever is issued earlier.
4. The notice will, in font size 10, bold, categorically state that pursuant to payment of dividend, the NAV of the Scheme would fall to the extent of payout and statutory levy (if applicable).
5. The NAV will be adjusted to the extent of dividend distribution and statutory levy, if any, at the close of business hours on record date.
6. Before the issue of such notice, no communication indicating the probable date of Dividend/IDCW declaration in any manner whatsoever will be issued by Mutual Fund.

Reinvestment of Income Distribution cum capital withdrawal Option

The unit holders have the option to reinvest the Dividend declared by the Scheme. Such unit holders opting to reinvest the IDCW receivable by them shall invest in additional units of the Scheme. Upon exercising such option, the IDCW due and payable to the unit holders will be compulsorily and without any further act by the unit holders reinvested in the Scheme/s. The IDCW so reinvested shall be constructive payment of IDCW to the unit holders and constructive receipt of the same amount from each unit holder, for reinvestment in units. On reinvestment of IDCW, the number of units to the credit of unit holder will increase to the extent of the dividend reinvested by the first 'Ex-income Distribution NAV' on the day of reinvestment as explained above. There shall, however, be no entry load on the dividends so reinvested.

Threshold Limit for 'Payout of Income Distribution cum capital withdrawal option'

If the dividend amount payable to the unit holders under the 'Payout of Income Distribution cum capital withdrawal option' under a folio is less than or equal to Rs. 250/- and where complete bank account details are not provided by the unitholders, then such amount will be compulsorily reinvested wherever reinvestment option is available under the scheme(s) and an account statement will be sent to the investors at their Registered Address. The dividend shall be re-invested at the prevailing ex-dividend Net Asset Value per Unit on the record date. There shall be no Exit Load on the IDCW so reinvested. The IDCW so reinvested shall constitute a constructive payment of IDCW to the Unit holders and a constructive receipt of the same amount from each Unit holder for reinvestment in Units.

Investment of unclaimed redemption and dividend/IDCW amounts of the schemes of the CRMF:

Pursuant to SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/ 2016/37 dated February 25, 2016 issued on "Treatment of unclaimed redemption and dividend/IDCW amounts", the new plan viz. Canara Robeco Liquid Fund – Unclaimed Redemption & Dividend Plan – Direct Growth Option has been introduced with the limited purpose of deploying the unclaimed redemption and dividend/IDCW amounts of the schemes of the Canara Robeco Mutual Fund ("CRMF").

The said Plan will not be available for subscription/switch-in by investors/Unit Holders of the schemes of the CRMF. No exit load will be charged on the plan and the total expense ratio of the Plan will be capped at 50 bps. All other terms and conditions of the Scheme remain unchanged.

Investors who claim the unclaimed amounts during a period of three years from the due date shall be paid initial unclaimed amount along-with the income earned on its deployment. Investors, who claim these amounts after 3 years, shall be paid initial unclaimed amount along-with the income earned on its deployment till the end of the third year. After the third year, the income earned on such unclaimed amounts shall be used for the purpose of investor education.

Bank Account Details:

In order to protect the interest of Unit holders from fraudulent encashment of cheques, the current SEBI (MF) Regulations has made it mandatory for investors to mention in their Application /Redemption request, their bank name and account number.

The normal processing time may not be applicable in situations where such details are not provided by Investors / Unit holders. The AMC will not be responsible for any loss arising out of fraudulent encashment of cheques and / or any delay / loss in transit.

SUSPENSION OF SALE / REDEMPTION OF UNITS:

The Mutual Fund at its sole discretion reserves the right to suspend sale and Redemption of Units in the Scheme temporarily or indefinitely when any of the following conditions exist. However, the suspension of sale and Redemption of Units either temporarily or indefinitely will be with the approval of the Trustees:

1. When one or more stock exchanges or markets (including bullion markets, forex markets which provide for valuation), are closed otherwise than for ordinary holidays.
2. When, as a result of political, economic or monetary events or any circumstances outside the control of the Trustees and the AMC, the disposal of the assets of the Scheme are not reasonable, or would not reasonably be practicable without being detrimental to the interests of the Unit holders.
3. In the event of breakdown in the means of communication used for the valuation of investments of the Scheme, without which the value of the securities of the Scheme cannot be accurately calculated.
4. During periods of extreme volatility of markets, which in the opinion of the AMC are prejudicial to the interests of the Unit holders of the Scheme.
5. In case of natural calamities, strikes, riots and bandhs etc.
6. In the event of any force majeure or disaster that affects the normal functioning of the AMC or the ISC.
7. During the period of Book Closure.
8. If so directed by SEBI.

The AMC reserves the right in its sole discretion to withdraw the facility of Sale of Units of the Scheme, temporarily or indefinitely, if AMC views that changing the size of the corpus further may prove detrimental to the existing Unit holders of the Scheme.

Suspension or restriction of Redemption facility shall be made applicable only after the approval of the Board of Directors of the AMC and the Trustees. The approval from the AMC Board and the Trustees giving details of circumstances and justification for the proposed action shall also be informed to SEBI in advance.

Further, Trading on stock exchanges may be halted (temporarily or indefinitely) because of market conditions or for reasons, that in view of the Exchange authorities or SEBI, trading in units of the scheme is not advisable.

Redemption

The redemption or repurchase proceeds shall be dispatched to the unit holders within 10 working days from the date of redemption or repurchase.

Dividend

The dividend warrants shall be dispatched to the unitholders within 15 days from the record date.

Delay in payment of redemption / repurchase proceeds

The Asset Management Company shall be liable to pay interest to the unit holders at the rate as may be specified by SEBI for the period of such delay (presently @ 15% per annum) and it shall be calculated from the record date.

Right to Limit Redemptions:

Subject to complying with the requirements as stated in the SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2016/57 dated 31st May, 2016 the following requirements shall be observed before imposing restriction on redemptions.

The AMC with the specific approval of Board of Trustees and Directors under immediate intimation to SEBI, may impose restriction to the redemptions of units of the scheme when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as Liquidity issues, Market failures, exchange closures, Operational issues like force majeure, technical failures etc.

Such restrictions will not exceed 10 working days in a period of 90 days. No redemption requests up to INR 2 lakh will be subject to any restrictions. Where redemption requests are above INR 2 lakh, AMC will redeem the first INR 2 lakh without restrictions and remaining part over and above INR 2 lakh will be subject to the following restrictions.

The AMC may restrict the maximum number of units that may be redeemed from a scheme/options on a business day to 5% of the total number of Units then in issue under the Scheme and option(s) thereof (or such higher percentage as the AMC may decide in any particular case) excluding the units that will be redeemed as per regulations without restrictions as above.

Ongoing price for subscription (purchase)/switch-in (from other schemes/plans of the mutual fund) by investors, (this is the price you need to pay for purchase/switch-in).

At the applicable NAV Ongoing price for redemption (sale) /switch outs (to other schemes/plans of the Mutual Fund) by investors, (this is the price you will receive for redemptions/switch outs)

Example: If the applicable NAV is Rs. 10, exit load is 1% then redemption price will be: $\text{Rs. } 10 \times (1 - 0.01) = \text{Rs. } 9.90$ At the applicable NAV subject to prevailing exit load.

Termination of the scheme:

The Trustees reserve the right to terminate the scheme at any time if the corpus of the scheme falls below Rs. 1 crore. Regulation 39(2) of the SEBI Regulations provides that any scheme of a mutual fund may be wound up after repaying the amount due to the Unit holders.

- (a) on the happening of any event which, in the opinion of the Trustees, requires the scheme to be wound up; or
- (b) if 75% of the Unit holders of a scheme pass a resolution that the scheme be wound up; or
- (c) if SEBI so directs in the interest of the unit holders.

Where a scheme is wound up under the above Regulation, the Trustees shall give a notice disclosing the circumstances leading to the winding up of the scheme:

- (a) to SEBI; and
- (b) in two daily newspapers having circulation all over India & a vernacular newspaper circulating at the place where the mutual fund is formed.

Provided that where a scheme is to be wound up under Regulation 39(2)(a), the trustees shall obtain consent of the unit holders participating in the voting by simple majority on the basis of one vote per unit and publish the results of voting within forty five days from the publication of newspaper notice as specified under point (b) above and if trustees fail to obtain the required consent of the unitholders then, the schemes shall be reopened for business activities from the second business day after publication of results of the voting.

In case of termination of the scheme, the Trustees shall proceed as follows:

From the proceeds of the assets of the scheme, the Trustees shall first discharge all liabilities of the scheme and make provision for meeting the expenses of the winding-up of the scheme, including the fees of the AMC. The Trustees shall distribute the proceeds to the Unit holders, in proportion to their respective interest in the assets of the scheme as on the date when the decision for winding up was taken, all proceeds derived from the realization of the investments, after recovering all costs, charges, expenses, claims, liabilities, whether actual or contingent, incurred, made or apprehended by the Trustees in connection with or arising out of the termination of the scheme. It will be ensured that the redemption proceeds are dispatched to the Unit holder within a maximum period of 10 working days from the date of redemption for the holders of Statement of Account, or from the date he/ she has tendered the unit certificates to the Registrars.

Restrictions, if any, on the right to freely retain or dispose of Units being offered.

The Units are transferrable in compliance with Regulation 37 of SEBI (MFs) Regulations, 1996.

In view of the same, additions/deletion of names will not be allowed under any folio of the Scheme.

The above provisions in respect of deletion of names will not be applicable in case of death of Unit Holder (in respect of joint holdings) as this will be treated as transmission of Units and not transfer.

The Units held in dematerialized form can be transferred and transmitted in accordance with the provisions of SEBI (Depositories and Participants) Regulations, 1996, as may be amended from time to time. The delivery instructions for transfer of Units will have to be lodged with the Depository Participant in the prescribed form and transfer will be effected in accordance with such rules/regulations as may be in force governing transfer of securities in dematerialized form. The Units held in demat mode can be pledged and hypothecated as per the provisions of Depositories Act and Rules and Regulations framed by Depositories.

Foreign Account Tax Compliance Act

FATCA is an acronym for Foreign Account Tax Compliance Act ("FATCA"), a United States Federal law to increase compliance by US taxpayers and is intended to bolster efforts to prevent tax evasion by the US taxpayers with offshore investments. The term 'total portfolio' shall mean the scheme portfolio including the securities affected by the credit event.</p> <p>PROCESS & PROCEDURE AMC may create segregated portfolio in a mutual fund scheme subject to the following:</p> <ol style="list-style-type: none"> Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under: <ol style="list-style-type: none"> Downgrade of a debt or money market instrument to 'below investment grade', or Subsequent downgrades of the said instruments from 'below investment grade', or Similar such downgrades of a loan rating. In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events as detailed at paragraph C-1 and implemented at the ISIN level. SEBI vide its circular dated 7th November 2019 has also permitted creation of segregated portfolio of unrated debt or money market instruments by mutual fund schemes of an issuer that does not have any outstanding rated debt or money market instruments, subject to the following: <ol style="list-style-type: none"> Segregated portfolio of such unrated debt or money market instruments may be created only in case of actual default of either the interest or principal amount. 'Actual default' by the issuer of such instruments shall be considered for creation of segregated portfolio.

- b. AMC shall inform AMFI immediately about the actual default by the issuer. Upon being informed about the default, AMFI shall immediately inform the same to all AMCs. Pursuant to dissemination of information by AMFI about actual default by the issuer, AMC may segregate the portfolio of debt or money market instruments of the said issuer as per the procedure mentioned below.4. Creation of segregated portfolio shall be optional and at the discretion of the AMC. It will be created only if the Scheme Information Document (SID) of the scheme has provisions for segregated portfolio with adequate disclosures.

Process for creation of segregated portfolio

- a. AMC shall decide on creation of segregated portfolio on the day of credit event. Once an AMC decides to segregate portfolio, it shall.
 - i. seek approval of trustees prior to creation of the segregated portfolio.
 - ii. immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors. The mutual fund should also disclose that the segregation shall be subject to trustee approval. Additionally, the said press release shall be prominently disclosed on the website of the AMC.
 - iii. ensure that till the time the trustee approval is received, which in no case shall exceed 1 business day from the day of credit event, the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.
- b. Once trustee approval is received by the AMC,
 - i. Segregated portfolio shall be effective from the day of credit event
 - ii. AMC shall issue a press release immediately with all relevant information pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.
 - iii. An e-mail or SMS should be sent to all unit holders of the concerned scheme.
 - iv. The NAV of both segregated and main portfolio shall be disclosed from the day of the credit event.
 - v. All existing investors in the scheme as on the day of the credit event shall be allotted equal number of units in the segregated portfolio as held in the main portfolio.
 - vi. No redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, AMC shall enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests.
- c. If the trustees do not approve the proposal to segregate portfolio, AMC shall issue **a press release immediately informing investors of the same.**

Valuation and processing of subscriptions and redemptions

- a. Notwithstanding the decision to segregate the debt and money market instrument, the valuation should take into account the credit event and the portfolio shall be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI (Mutual Funds) Regulations, 1996 and Circular(s) issued thereunder.
- b. All subscription and redemption requests for which NAV of the day of credit event or subsequent day is applicable will be processed as per the existing circular on applicability of NAV as under:
 - i. Upon trustees' approval to create a segregated portfolio -
 - Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
 - Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.
 - ii. In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

Disclosure Requirements

In order to enable the existing as well as the prospective investors to take informed decision, the following shall be adhered to:

- a. A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio.
- b. Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme.
- c. The Net Asset Value (NAV) of the segregated portfolio shall be declared on daily basis.
- d. The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc.
- e. The scheme performance required to be disclosed at various places shall include the impact of creation of segregated portfolio. The scheme performance should clearly reflect the fall in NAV to the extent of the portfolio segregated due to the credit event and the said fall in NAV along with recovery(ies), if any, shall be disclosed as a footnote to the scheme performance.
- f. The disclosures at paragraph (d) and (e) above regarding the segregated portfolio shall be carried out for a period of at least 3 years after the investments in segregated portfolio are fully recovered/ written-off.
- g. The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

TER for the Segregated Portfolio

- a. AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
- b. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.
- c. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.
- d. The costs related to segregated portfolio shall in no case be charged to the main portfolio.

Monitoring by Trustees

- a. In order to ensure timely recovery of investments of the segregated portfolio, trustees shall ensure that:
 - i. The AMC puts in sincere efforts to recover the investments of the segregated portfolio.
 - ii. Upon recovery of money, whether partial or full, it shall be immediately distributed to the investors in proportion to their holding in the segregated portfolio. Any recovery of amount of the security in the segregated portfolio even after the write off shall be distributed to the investors of the segregated portfolio.
 - iii. An Action Taken Report (ATR) on the efforts made by the AMC to recover the investments of the segregated portfolio is placed in every Trustees meeting till the investments are fully recovered/ written-off.
 - iv. The trustees shall monitor the compliance of this circular and disclose in the half-yearly trustee reports filed with SEBI, the compliance in respect of every segregated portfolio created.
- b. In order to avoid mis-use of segregated portfolio, trustees shall ensure to have a mechanism in place to negatively impact the performance incentives of Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of the AMC, including claw back of such amount to the segregated portfolio of the scheme.

Illustration of Segregated Portfolio:

For the purpose of illustration we are considering a portfolio of scheme with only growth plan with outstanding units of 10,000. One of the investments - 23700 units of 8.04% E Ltd NCD (MD 27/01/2022) valued at 91.5571 per unit suffered a credit event on 4th June 2019 as its ratings changed from A- to C. This security was marked down by 55% and is to be valued at 41.2007 per unit. The following workings illustrates the segregated portfolio creation and the effect on the NAV.

Portfolio Date: 04-June-19

Downgrade Event Date: 04-June-19

Downgrade Security: 8.04% E Ltd NCD (MD 27/01/2022) from A- to C

Valuation Marked Down: 55%

No. of units outstanding in a scheme 10,000 units, amounting to (10,000*1181.85) Rs.118.18 lakhs.

A. COMPUTATION OF NAV

The computation of NAV, valuation of securities / assets, accounting policies and standards would be in conformity with the SEBI (Mutual Funds) Regulations, 1996 and guidelines issued from time to time. The NAV per unit shall be calculated as follows:

$$\frac{(\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities and Provisions})}{(\text{No. of Units outstanding under the Scheme})} = \text{NAV (Rs.)}$$

The price arrived shall be rounded off up to four decimals.

An Illustration:

Assume that the Market or Fair Value of Scheme's investments is Rs. 1,00,00,000; Current asset of the scheme is Rs.25,00,000; Current Liabilities and Provisions is Rs. 15,00,000 and the No. of Units outstanding under the scheme are 5,00,000.

Thus, the NAV will be calculated as:

$$\text{NAV} = \frac{1,00,00,000 + 25,00,000 - 15,00,000}{5,00,000}$$

Therefore, the NAV of the scheme is Rs. 22.0000.

B. COMPUTATION OF SALE PRICE

Since the fund do not charge any Entry Load, the Purchase price or "Sale Price" is same as NAV of the fund disclosed on daily basis. Therefore, entry load, if any shall be charged as a percentage of Net Assets Value (NAV) for calculating Sale Price i.e. applicable Entry Load (if any) as a percentage of NAV will be added to NAV to calculate "Sale Price". In other words, the following formulae shall be used:

$$\text{SALE PRICE} = \text{Applicable NAV} \times (1 + \text{Entry Load, if any})$$

An Illustration:

An investor invests Rs. 20,000/- and the current NAV is Rs.20/-. The entry load levied by the scheme is Nil i.e.0%. Therefore, Sale price at which the investor invests = Rs.20.00 *(1 + 0%) = Rs.20.00.

C. COMPUTATION OF REPURCHASE PRICE

For calculating the Repurchase Price, exit load charged to the scheme is subtracted i.e. applicable Exit Loads as a percentage of NAV will be subtracted from NAV to calculate Repurchase Price. The formula for calculation of Repurchase Price would be:

$$\text{REPURCHASE PRICE} = \text{Applicable NAV} \times (1 - \text{Exit Load, if any})$$

An Illustration:

An investor invests Rs. 20,000/- and the current NAV is Rs.20/-. The exit load levied by the scheme is 1.0% if redeemed/switched within 1 year from the date of allotment. Therefore, the Repurchase Price will be = Rs.20.00 *(1 – 1.0%) = Rs.19.80.

Notes:

1. It is assumed in the above illustration that the Investor redeems his investments within the applicable exit load period. No exit load will be levied after the completion of period of applicable exit load.
2. Different Schemes may have different exit load structures. Investors are requested to refer the Scheme documents / AMC website to know the latest exit load structures

IV. FEES AND EXPENSES

This section outlines the expenses that will be charged to the schemes:

A. NEW FUND OFFER (NFO) EXPENSES

As this is an ongoing offer, there are no New Fund Offer Expenses.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated that the following percentage of the daily net assets of the scheme will be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund **www.canararobeco.com**. Any expenses beyond the prescribed limit shall be charged / borne in accordance with the Regulations prevailing from time to time

^Any other expenses which are directly attributable to the Schemes, may be charged within the overall limits as specified in the Regulations, except those expenses which are specifically prohibited as per Regulations.

*Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan.

#As per the Regulation 52, the investment management fee and total annual scheme recurring expenses chargeable to the Scheme.

** Excluding GST

The expenses towards Investment Management and Advisory Fees under Regulation 52 (2) and the various sub-heads of recurring expenses mentioned under Regulation 52 (4) of SEBI (MF) Regulations are fungible in nature. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52 (2) and (4) respectively. Further, the additional expenses under Regulation 52(6A)(c) shall also be incurred towards the same expense heads. However, as per SEBI circular dated 2nd February, 2018 in case of all schemes, wherein exit load is not levied / not applicable, the AMCs will not be eligible to charge the above mentioned additional expenses for such schemes.

The purpose of the above table is to assist the Investor in understanding the various costs and expenses that an Investor in the Scheme will bear directly or indirectly. The figures in the table above are estimates. The actual expenses that can be charged to the Scheme will be subject to limits prescribed from time to time under the SEBI (MF) Regulations.

As per the Regulation 52, the investment management fee and total annual scheme recurring expenses chargeable to the Scheme are as under:

- i) On the first Rs. 500 crore of the daily net assets - 2.25%;
- ii) On the next Rs. 250 crore of the daily net assets – 2.00%;
- iii) On the next Rs. 1,250 crore of the daily net assets - 1.75%;

- vii) On the balance of the assets - 1.05%;
- (a) **Additional Expenses under Regulation 52 (6A):** brokerage and transaction costs which are incurred for the purpose of execution of trade and is included in the cost of investment, not exceeding 0.12 per cent in case of cash market transactions and 0.05 per cent in case of derivatives transactions;
 In accordance with SEBI circular no. CIR/IMD/DF/24/2012 dated November 19, 2012, any payment towards brokerage and transaction cost, over and above the said 0.12% and 0.05% for cash market transactions and derivatives transactions respectively, may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 (6) of the SEBI (MF) Regulations, 1996.
- (b) Expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such cities as specified by SEBI from time to time are at least -
 - (i) 30 per cent of gross new inflows in the scheme, or;
 - (ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher:

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub- clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis;

The said additional expenses on account of inflows from beyond top 30 cities so charged shall be clawed back in the respective schemes, in case the said inflow is redeemed within a period of 1 year from the date of investment. The expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from such cities.

As per SEBI circular dated 22nd Oct, 2018 additional TER can be charged based on inflows only from retail investors from B30 cities. It will be based on inflows from retail investors (inflows of amount up to Rs. 2, 00,000/- per transaction, by individual investors shall be considered as inflows from "retail investor") from B 30 cities, keeping all other conditions of SEBI Circular(s) on charging of additional TER of 30 bps unchanged. Thus, inflows from corporates and institutions from B30 cities henceforth will not be considered for computing the inflows from B 30 cities for the purpose of additional TER of 30 basis points.

The additional commission for B 30 cities shall be paid as trail only.

An illustration:

Assuming, an investor has invested Rs.10, 000/- in the scheme having total expense ratio of 2.25%. The scheme generated a CAGR return of 7% over one year. Therefore,

Investment Amount (Rs.) (A) = 10,000

Scheme Return (1Year) in CAGR (%) (B) = 7%

Return in One Year (Rs.) (C= A)*(1+B)^1 = 700

Total Expense Ratio (%) (D) = 2.25%

Impact of Total Expense Ratio (Rs.) (E=A*D) = 225

Total Return to the investor (Rs.) (F=C-E) =475

As mentioned in the illustration above, the schemes return to the investor is impacted by 2.25% due to the expense charged.

Please note that the above is an approximate illustration of the impact of expense ratio on the returns, where the Gross NAV has been simply reduced to the extent of the expenses. In reality, the actual impact would vary depending on the path of returns over the period of consideration. Expenses will be charged on daily net assets. These estimates have been made in good faith as per the information available to the Investment Manager based on past experience but the total expenses shall not exceed the limits permitted by SEBI. Types of expenses charged shall be as per the SEBI (MF) Regulations.

The purpose of the above illustration is to assist the investor in understanding the various costs and expenses that an investor in the scheme will bear directly or indirectly.

Goods and Service Tax (GST):

GST shall be charged as follows:

- GST on investment and advisory fees shall be charged to the Scheme in addition to the maximum limit on TER as prescribed in Regulation 52 (6) of the SEBI (MF) Regulations.
- GST on other than investment and advisory fees, if any, shall be borne by the Scheme within the maximum limit on TER as prescribed in Regulation 52 (6) of the SEBI (MF) Regulations.
- GST on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under Regulation 52 of the SEBI (MF) Regulations.

The Fund will update the current expense ratios on its website (www.Canararobeco.com) at least three working days prior to the effective date of the change. Additionally, the CRAMC will disclose the Total Expense Ratio (TER) of the Scheme on daily basis on the website of the Mutual Fund (www.canararobeco.com) and on the website of AMFI (www.amfiindia.com).

Provided that any increase or decrease in TER in a mutual fund scheme due to change in AUM and any decrease in TER in a mutual fund scheme due to various other regulatory requirements would not require issuance of any prior notice to the investors.

Further, any change in the base TER (i.e. TER excluding additional expenses provided in Regulation 52 (6A) (b) and 52 (6A)(c) of SEBI (Mutual Funds) Regulations, 1996) and Goods & Services Tax on investment and advisory fees in comparison to previous base TER charged to the Scheme/Plan shall be communicated to investors of the Scheme/Plan through notice via email or SMS and will be uploaded on the website (www.canararobeco.com) at least three working days prior to effecting such change.

Provided that any decrease in TER in a mutual fund scheme due to various regulatory requirements, would not require issuance of any prior notice to the investors

NOTE:

The total expense ratio of the scheme is subject to change, based on the Regulations/Circulars issued by SEBI from time to time.

Investor Education and Awareness initiatives:

As per SEBI Circular No. CIR/IMD/DF/21/2012 dated September 13, 2012, the AMC shall annually set apart at least 2 basis points p.a. (i.e. 0.02% p.a.) on daily net assets of the Scheme within the limits of total expenses prescribed under Regulation 52 of SEBI (MF) Regulations for investor education and awareness initiatives undertaken by the Fund. The total expenses of the Scheme including the Investment Management and Advisory Fee shall not exceed the limits stated in Regulation 52 of the SEBI (MF) Regulations. Any expenditure in excess of the SEBI regulatory limits shall be borne by the AMC or by the Trustees or the Sponsor.

C. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.canararobeco.com) or may call at (1800 209 2726) or your distributor.

Name of the Scheme	Applicable Load Structure
Canara Robeco Focused Equity Fund	Entry Load: Nil Exit Load: 1% - if redeemed/switched out within 365 days from the date of allotment. Nil - if redeemed/switched out after 365 days from the date of allotment

No exit load shall be charged on units allotted on reinvestment of IDCW for existing as well as prospective investors.

The above mentioned load structure shall be equally applicable to the special products such as SIP, switches, STP, SWP, etc. offered by the AMC. Further, for switches between the Growth and Dividend Option or vice versa, no load will be charged by the scheme. For switches between the Plans i.e. between Regular and Direct Plan or vice versa, no load will be charged by the scheme. Exit load charged to the investors will be credited back to the scheme net of GST. The Investor is requested to check the prevailing Load structure of the Scheme before investing.

The distributors shall disclose all the commissions (in the form of trail commission or any other mode) payable to them for the different competing schemes of various mutual funds from amongst which the scheme is being recommended to the investor. For any change in load structure AMC will issue an addendum and display it on the website/- Investor Service Centres. The latest modification in the load structure whether by way of Exit Load will be stamped in the acknowledgment slip issued to the investor on submission of the Application Form and will also be disclosed in the Statement of Accounts issued after introduction of such load.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. At the time of changing the Load Structure following measures would be taken to avoid complaints from investors about investment in the schemes without knowing the loads:

- The addendum detailing the changes would be attached to Scheme Information Document and Key Information Document. The addendum will be circulated to all the distributors / brokers so that the same can be attached to all Scheme Information Documents and Key Information Documents already in stock.
- Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the Investor Service Centers and distributors / brokers office.
- A public notice would be given in respect of such changes in one English daily newspapers having nationwide circulation as well as in a newspaper publish in the language of region where the head office of the mutual fund is situated.
- The introduction of the exit load along with the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.
- Any other measure which the AMC/Mutual Fund may feel necessary.

The investor is requested to check the prevailing load structure of the scheme before investing.

For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres

Unitholder Transaction Expenses and Load:

The repurchase price of an open ended scheme shall not be lower than 95% of the NAV

D. WAIVER OF LOAD FOR DIRECT APPLICATIONS
